

Following the NJOS & DCOS shows, I received several inquiries on some of the Cymbidiums used in the displays. I am getting a late April shipment with meristem plants in both 3" (2-3 years to BS) & 6" (BS) pot sizes.

- Sizes = pot size when leaving California. I normally repot 3" into 5" square, and 6" into 8" or 10" pots.
- Prices reflects potted up (free delivery to DCOS May 9<sup>th</sup> meeting upon request).
- Pre-order bare root plants (collect from greenhouse on May 6<sup>th</sup> or DCOS May 9<sup>th</sup>) : Less 20% (items 1-12 only)

### Cym Kauai 'Skyrocket'

3" flowers on upright spikes, early season bloomer.

**3" pot size \$32**
