

C. amethystoglossa

Z-2189 *C. amethystoglossa* ('Albarus' x 'Andromeda')

Pot Size (Inches): 2 1/2"

Price (USD): 25,00

Selection of two high quality "types".

Z-2188 *C. amethystoglossa* (tipo 'Aldebaran' x flamea 'Ventania')

Pot Size (Inches): 2 1/2"

Price (USD): 25,00

C. amethystoglossa 'Aldebaran' has excellent flower shape. *C. amethystoglossa* flamea 'Ventania' has small splash markings on the petals that doesn't show in all bloomings.

Z-2902 *C. amethystoglossa aurea* 'Do Daniel' x **SELF**

Pot Size (Inches): 2 1/2"

Price (USD): 25,00

Z-2903 *C. amethystoglossa* (aurea 'Do Daniel' x flamea (100031))

Pot Size (Inches): 2 1/2"

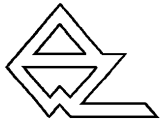

Price (USD): 30,00

Z-2770 *C. amethystoglossa aurea* ('do Daniel' x 'Fonte Grande')

Pot Size (Inches): 2 1/2"

Price (USD): 25,00

C. amethystoglossa

Z-2899 C. amethystoglossa (caerulea 'Vida Boa' x semi alba 'Tedesco')

Pot Size (Inches): 2 1/2"

Price (USD): 20,00

Z-2557 C. amethystoglossa (caerulea 'É Linda' x semi alba 'Tedesco')

Pot Size (Inches): 2 1/2"

Price (USD): 20,00

Z-935 C. amethystoglossa ('Córrego do Cachorro' x 'Palmira')

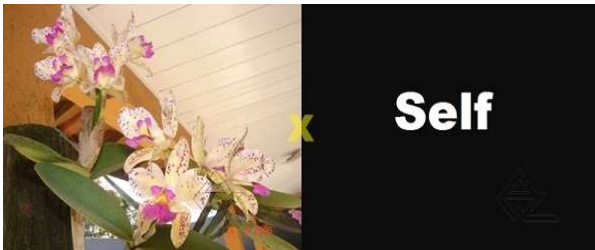

Pot Size (Inches): 3"

Price (USD): 25,00

Two selected plants of C. amethystoglossa.

Z-1909 C. amethystoglossa creme 'Luma' x SELF

Pot Size (Inches): 2 1/2"

Price (USD): 20,00

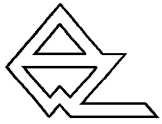

Nice C. amethystoglossa earlier considered by us as variety aurea (Yellow). This plant actually had light yellow flowers so we consider it as "cream" colored. The original plant died. Until now, we don't have experience on how crosses with aurea or cream colored flowers will behave in terms of the results.

Z-2891 C. amethystoglossa (flamea x flamea 'Cinco Estrelas')

Pot Size (Inches): 2 1/2"

Price (USD): 50,00

C. amethystoglossa

Z-2780 ***C. amethystoglossa flamea* ('Aquarela' x 'Respingo')**

Pot Size (Inches): 2" - 2 1/2"

Price (USD): 50,00

Z-2396 ***C. amethystoglossa flamea* ('Oasis' x *pet. larga* 'Campeã')**

Pot Size (Inches): 2 1/2"

Price (USD): 75,00

Z-1176 ***C. amethystoglossa* ('Lorena' x 'Jubarte')**

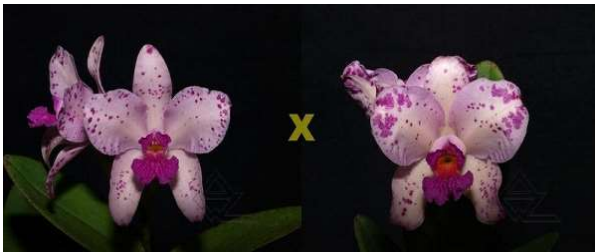

Pot Size (Inches): 2 1/2" - 3"

Price (USD): 25,00

Both plants have superior quality flowers. Similar to Z-1174.

Z-2200 ***C. amethystoglossa* ('Nego' x 'Wanderlino Schunk')**

Pot Size (Inches): 2 1/2"

Price (USD): 25,00

Z-1917 ***C. amethystoglossa sem pintas* (spotless) x *SELF***

Pot Size (Inches): 2 1/2"

Price (USD): 30,00

Unusual spotless form of *C. amethystoglossa*. Only one seedling bloomed and it confirmed this variety.

C. amethystoglossa

Z-2562 *C. amethystoglossa (semi alba 'Tedesco' x albescens 'Itapebí')*

Pot Size (Inches): 2 1/2"

Price (USD): 25,00

Z-2397 *C. amethystoglossa (tipo 'Andromeda' x flamea pet. larga 'Campeã')*

Pot Size (Inches): 2 1/2"

Price (USD): 25,00

Z-2409 *C. amethystoglossa ('Wanderlino Schunk' x 'Orchidglade')*

Pot Size (Inches): 2" - 2 1/2"

Price (USD): 15,00

C. aurantiaca

Z-2118 *C. aurantiaca 'Mishima Spots' x SELF*

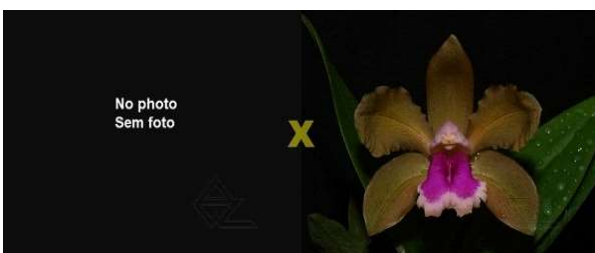

Pot Size (Inches): 2 1/2" (NBS)

Price (USD): 20,00

This *C. aurantiaca* has orange flowers with tiny spots, making it very attractive. Plants are blooming and confirming this variety.

C. bicolor

Z-1318 *C. bicolor ('DAR' x 'J. R. G. Brisola')*

Pot Size (Inches): 2 1/2" (NBS)

Price (USD): 25,00

Two very good *C. bicolor* were used in this cross. The *C. bicolor* 'JRG Brisola' is an old plant from our collection and has superb flower shape.

AWZ ORCHIDS

EXPORT - USA

CONTACT: Alek Zaslawski
TELEFAX: 55-27-3227-1936
E-MAIL: awzalek@gmail.com
WEBSITE: www.awzorchids.com

C. bicolor

Z-2115 *C. bicolor* tipo ('Nilton' x 'Caliman')

Pot Size (Inches): 2 1/2"

Price (USD): 20,00

We used two selected plants with very nice flower shapes.

Z-1730 *C. bicolor* ['Nilton' x (punctata 1 x punctata 2)]

Pot Size (Inches): 2 1/2" - 3"

Price (USD): 25,00

Smaller plants. This spotted variety (punctata) is not common in this species and we hope that at least part of the seedlings will come up punctata.

C. eldorado

Z-1471 *C. eldorado* alba 'Ouro Branco' x **SELF**

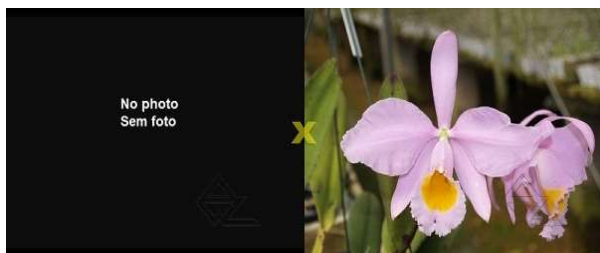

Pot Size (Inches): 2 1/2"

Price (USD): 30,00

Some plants already bloomed. Most of them confirmed the alba variety but a few bloomed concolor. *C. eldorado* usually have a golden yellow color on the lip.

Z-1512 *C. eldorado* ('Rainha Azul' x concolor)

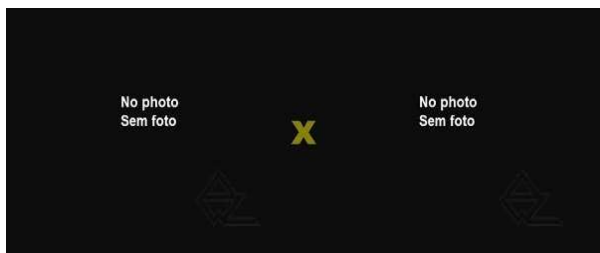

Pot Size (Inches): 2 1/2" - 3"

Price (USD): 25,00

These are already blooming with very nice concolor flowers.

Z-787 *C. eldorado* (tipo x rubra)

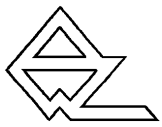

Pot Size (Inches): 3"

Price (USD): 25,00

We expect good shaped flowers, with darker than average colors.

C. gaskelliana

C. gaskelliana

Z-1496 ***C. gaskelliana caerulea (12-1 x 11-1)***

Pot Size (Inches): 3 1/2" (NBS)

Price (USD): 30,00

We expect caeruleas based on the result of a similar cross.

Z-2024 ***C. gaskelliana [caerulea ('Aida' x 'Alexis') x caerulescens 'Mimi']***

Pot Size (Inches): 3" (NBS)

Price (USD): 25,00

Z-1094 ***C. gaskelliana caerulea ('Aida' x 'Alexis') x SELF***

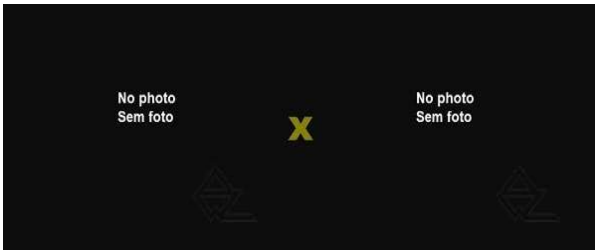

Pot Size (Inches): 3 1/2"

Price (USD): 35,00

There is a very high possibility of obtaining caeruleas with this self pollination. This plant has also very good flower shape.

Z-1497 ***C. gaskelliana caerulea ('Vista Linda' x 'Boa Vista')***

Pot Size (Inches): 3 1/2" (NBS)

Price (USD): 30,00

We expect caeruleas based on the result of a similar cross.

Z-2013 ***C. gaskelliana caerulescens 'Mimi' x SELF***

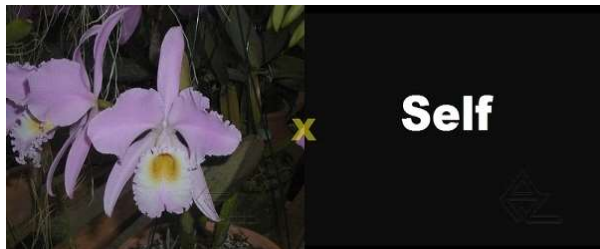

Pot Size (Inches): 2 1/2" (NBS)

Price (USD): 25,00

Beautiful color form, with light tone of caerulea and very nice flower shape.

C. gaskelliana

Z-1966 *C. gaskelliana concolor 'Yamile' x SELF*

Pot Size (Inches): 2 1/2"

Price (USD): 25,00

We expect to obtain this rare variety of *C. gaskelliana*.

C. granulosa

Z-1193 *C. granulosa ('Coliseu' x 'Formosa')*

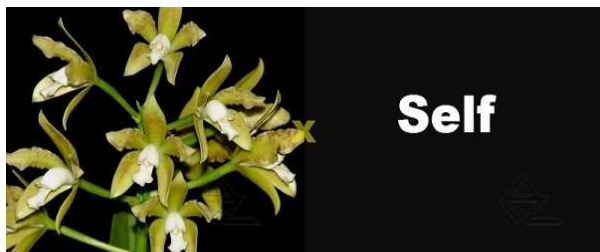

Pot Size (Inches): 2 1/2" - 3"

Price (USD): 25,00

Crossing of two selected cones. *C. granulosa* is very similar to *C. schofieldiana* and some people say they are different populations of the same species. Flowers and blooming season are almost identical. Usually we set them apart just by looking at the plants. *C. granulosa* is a "heavier" plant, with thicker pseudobulbs, if compared to *C. schofieldiana*.

C. guttata

Z-2002 *C. guttata albina 'Cetro de Rubis' x SELF*

Pot Size (Inches): 2 1/2"

Price (USD): 30,00

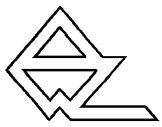

Rare color form. Petals and sepals have light beige color and are spotted. The lip is almost white.

Z-2742 *C. guttata albina ('Interlagos' x 'Ludmila')*

Pot Size (Inches): 2 1/2"

Price (USD): 20,00

C. guttata

Z-2172 C. guttata albina ('Interlagos' x 'Vitor Couto')

Pot Size (Inches): 2 1/2"

Price (USD): 25,00

The C. guttata albina 'Interlagos' has shorter pseudobulbs if compared to a typical C. guttata. It also blooms aprox. three months after the regular blooming season so we believe it's originated from from the epiphyte populations and not from plants thriving on the costal areas. The C. guttata albina 'Vitor Couto' is similar regarding the blooming season, but with the larger sized pseudobulbs.

Z-1308 C. guttata bronze spotless 'Carlitus' x SELF

Pot Size (Inches): 2 1/2" - 3"

Price (USD): 50,00

This spotless bronze colored C. guttata used in this self pollination is really outstanding. The few plants that bloomed presented a variation in colors from light brown to bronze.

Z-2868 C. guttata caerulea escura ('Everglades' x 'Cara Pálida')

Pot Size (Inches): 2 1/2"

Price (USD): 25,00

Z-699 C. guttata coerulea ('Celeste' x 'Labelo Anil')

Pot Size (Inches): 3" (NBS)

Price (USD): 50,00

Crossing of two caeruleas with spotted green petals/sepals and blue lip (both typical caeruleas for this species). The C. guttata caerulea 'Labelo Anil' has darker lip color.

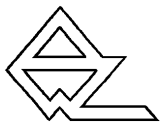

Z-1871 C. guttata creme (spotless) 'Edelweiss' x SELF

Pot Size (Inches): 2 1/2"

Price (USD): 50,00

Rare. This spotless flower is light colored (cream color) with an almost white lip. The lip has a delicate pink color making it a very unusual and beautiful variety for this species.

C. guttata

Z-2644 C. guttata (semi alba 'Esperança' x creme 'Z-1111')

Pot Size (Inches): 2 1/2"

Price (USD): 20,00

Z-2729 C. guttata [tipo (boa) x 'Savinho']

Pot Size (Inches): 2 1/2"

Price (USD): 20,00

Z-1870 C. guttata verde sem pintas 'AWZ' x SELF

Pot Size (Inches): 2 1/2"

Price (USD): 35,00

This would be the equivalent of a semi alba, with green-spotless petals and purple lip. Some seedlings bloomed with similar colors from the parent plants. Others tend to produce beige colored petals and sepals. All had spotless flowers.

Z-700 C. guttata spotless (green 'AWZ' x beige 'Onça Parda')

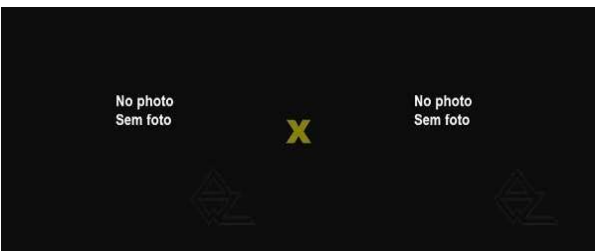

Pot Size (Inches): BS (50 cm)

Price (USD): 60,00

This is a cross between two rare spotless varieties. The C. guttata verde sem pintas 'AWZ' has green petals/sepals and a purple lip. The other plant has light brown (yellowish) tone and is also spotless. All plants that bloomed confirmed this variety, with slight variations in the colors of petals and sepals.

C. harrisoniana

Z-1599 C. harrisoniana caerulescens-perola x SELF

Pot Size (Inches): 3"

Price (USD): 25,00

We had this plant originally labeled as caerulescens but it's trully a "perola", which means the flowers have a very light creamy tone.

AWZ ORCHIDS

C. harrisoniana

Z-1493 **C. harrisoniana tipo ('Rainha do Brejo' x 'Cheung´s Delight')**

Pot Size (Inches): 3" (NBS)

Price (USD): 25,00

Some plants bloomed and there was a high percentage of flowers with exceptional shape and rounded petals.

AZ-2 **C. harrisoniana var. trilabelo**

Pot Size (Inches): BS

Price (USD): 50,00

We are offering confirmed peloric plants (also called "trilabelo"). C. harrisoniana normally has narrow petals and sepals. In this rare variety, petals are wide and reproduce the shape of the lip. Usually peloric flowers have a tendency to not open fully, but these do.

Z-1278 **C. harrisoniana ('Z-533' x 'Rainha do Brejo')**

Pot Size (Inches): 3" (NBS)

Price (USD): 20,00

Crossing of two selected "types" with wide petals.

C. intermedia

Z-1800 **C. intermedia (caer. pelorica marginata 'Azulão' x caerulea 'Blue Rhapsody')**

Pot Size (Inches): 2 1/2"

Price (USD): 20,00

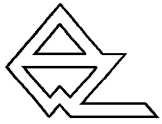

Z-1402 **C. intermedia (orlata '061-Quadrado' x flamea 'Sander')**

Pot Size (Inches): 2 1/2" (NBS)

Price (USD): 20,00

Flowers of C. intermedia orlata '061-Quadrado' has very wide lip. C. intermedia flamea 'Sander' is one of the nicest flameas we know, with wide white petals maked with a purple stripe.

C. intermedia

Z-1213 C. intermedia (orlata 'Pedra Azul' x 'Quantum')

Pot Size (Inches): 2 1/2" (NBS)

Price (USD): 20,00

Similar to Z-1211. C. intermedia 'Quantum' has large flowers, exceptional petals and overall flower shape. Also known to be a good parent plant.

Z-1211 C. intermedia (orlatão 'AWZ' x 'Quantum')

Pot Size (Inches): 3"

Price (USD): 20,00

Similar to Z-1213.

Z-751 C. intermedia ('Redonda1 x pelorica 'Maravilha')

Pot Size (Inches): 2 1/2" (NBS)

Price (USD): 20,00

We expect rounded flower shapes and also peloric flowers.

Z-1611 C. intermedia vinho punctatissima x SELF

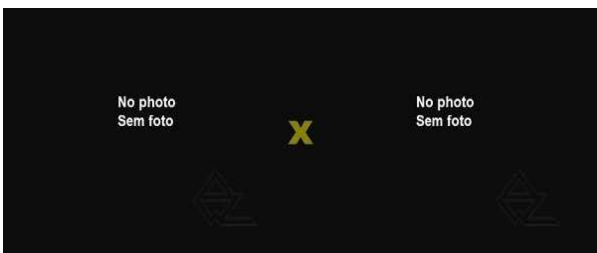

Pot Size (Inches): 2 1/2"

Price (USD): 20,00

This rather rare variety has a wine colored (vinicolor) lip and cream colored petals and sepals, with small wine colored spots. Hope we can repeat this pattern.

C. jenmanii

Z-1301 C. jenmanii orlata 'Pacaraima' x SELF

Pot Size (Inches): 2 1/2" - 3"

Price (USD): 25,00

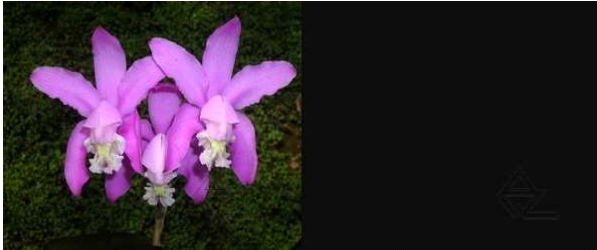

This orlata variety has type lilac colors, but the darker color of the lip spreads all the way around its circumference.

C. kerrii

C. kerrii

Z-1797 *C. kerrii* 'Bahia' x **SELF**

Pot Size (Inches): NBS

Price (USD): 20,00

Species from Bahia state and nowadays very rare in nature. Plants have characteristics of bifoliate Cattleya but are actually unifoliate. Flowers are reminiscent of *C. harrisoniana* but smaller.

C. labiata

Z-2786 *C. labiata amesiana* ['Angel' x ('Flagstad' x 'Recife')]

Pot Size (Inches): 2 1/2"

Price (USD): 15,00

Z-1352 *C. labiata amesiana* ('Serra Negra' x 'Angel')

Pot Size (Inches): 3" (NBS)

Price (USD): 30,00

BLOOM "TYPE".

Z-2574 *C. labiata* (amesiana 'Helvécia' x roxo bispo 'Urbano')

Pot Size (Inches): 2 1/2"

Price (USD): 20,00

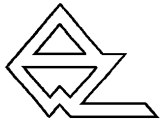

Possibly "types".

Z-2765 *C. labiata* (caerulea 'Azul' x caerulescens 'Da. Norma Dreher')

Pot Size (Inches): 2 1/2"

Price (USD): 35,00

C. labiata

Z-902 C. labiata caeruleascens 'Da. Norma Dreher' x SELF

Pot Size (Inches): 2 1/2" - 3"

Price (USD): 35,00

This is an old plant in our collection and very famous among Brazilian growers, although not common in collections. Plant is also known as C. labiata 'Canoinha'. It's a beautiful bluish variety, also called var. amethystina with excellent shape.

Z-2388 C. labiata ('Cara Grande' x 'Cesar Iacavoni')

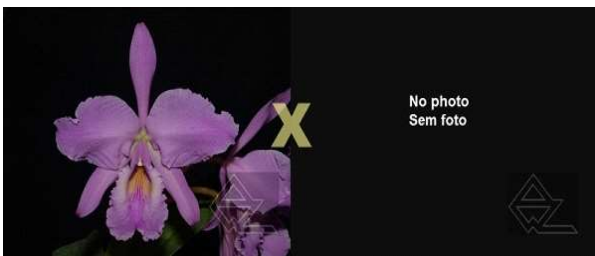

Pot Size (Inches): 2 1/2" - 3"

Price (USD): 20,00

Crossing between two excellent types.

Z-2732 C. labiata concolor ('Walther Dreher' x 'Z-759')

Pot Size (Inches): 2 1/2"

Price (USD): 20,00

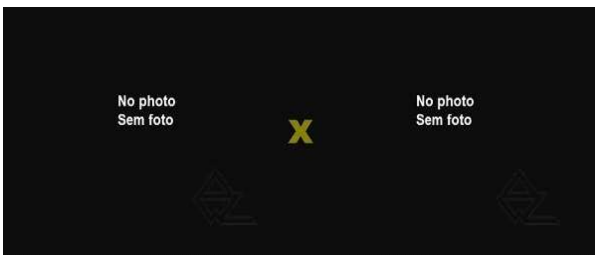

Z-2752 C. labiata (escura 'Cheia' x 'Cara Grande')

Pot Size (Inches): 2 1/2"

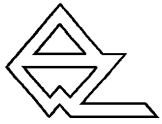

Price (USD): 20,00

Z-2750 C. labiata (escura 'Z-322' x rubra 'Pernambuco')

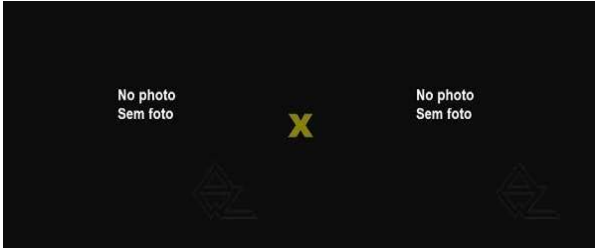

Pot Size (Inches): 2 1/2"

Price (USD): 20,00

C. labiata

Z-2777 *C. labiata rubra ('Redonda' x 'Black')*

Pot Size (Inches): 2 1/2"

Price (USD): 20,00

Z-1347 *C. labiata semi alba ('Arlequim' x 'Branca de Neve')*

Pot Size (Inches): 3 1/2" (NBS)

Price (USD): 25,00

BLOOM "TYPE".

Z-2751 *C. labiata (suave 'Z-904' x roxo bispo 'Urbano')*

Pot Size (Inches): 2 1/2"

Price (USD): 20,00

Z-1744 *C. labiata 'Yellow Eyes' x SELF*

Pot Size (Inches): 3"

Price (USD): 35,00

C. labiata 'Yellow Eyes' has large flowers and excellent form. Very nice.

C. lawrenceana

Z-2065 *C. lawrenceana flamea ('Nr. 1' x 'Nr. 2')*

Pot Size (Inches): 2 1/2"

Price (USD): 15,00

We hope to obtain some flamea flowers. This beautiful species from Venezuela can produce many flowers per spike, although not well shaped. The darker color marks on petals (flamea) will definitively bring the attention.

C. leopoldii

C. leopoldii

Z-2970 *C. leopoldii* (albina 'Alegre' x suave 'Z-834')

Pot Size (Inches): 2 1/2"

Price (USD): 15,00

Z-2232 *C. leopoldii* albina 'Dr. Kley' x **SELF**

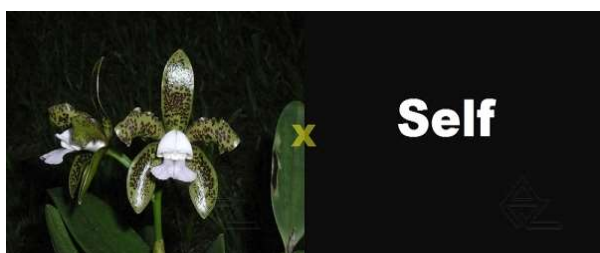

Pot Size (Inches): 2 1/2"

Price (USD): 30,00

The parent plant has no pigmentation. Flowers have light green petals and sepals. The lip is pure white.

Z-1207 *C. leopoldii* caerulea 'Baiana' x **SELF**

Pot Size (Inches): NBS - BS

Price (USD): 90,00

Very rare. Seedlings confirm caerulea variety and most plants already bloomed. *C. leopoldii* are native to southern Brasil, but this plant originates from an isolated population in the state of Bahia, which is more than one thousand miles (1600 Km) north of the usual habitat.

Z-1958 *C. leopoldii* caerulea 'San Rafael' x **SELF**

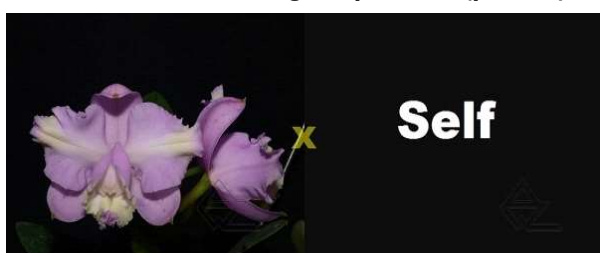

Pot Size (Inches): 2 1/2"

Price (USD): 30,00

Petals and sepals have a light brown/greenish color, with a few spots. The lip is blue (caerulea). This plant belongs to the typical population of *C. leopoldii* from southern Brazil, contrary to our cross Z-1207, which belongs to a small population far north (more than 1,000 miles) in Bahia State.

C. loddigesii

Z-1901 *C. loddigesii* pelorica (peloric) x **SELF**

Pot Size (Inches): 3" (NBS)

Price (USD): 30,00

Self pollination of a peloric form of *C. loddigesii*.

AWZ ORCHIDS

Price List

WEBSITE: www.awzorchids.com

C. loddigesii

Z-1777 *C. loddigesii (punctata 'AWZ' x striata)*

Pot Size (Inches): 2 1/2" (NBS)

Price (USD): 25,00

The punctata variety has spotted flowers while the striata variety has darker veins on petals and sepals.

Z-1770 *C. loddigesii punctata caerulea x SELF*

Pot Size (Inches): 2 1/2" (NBS)

Price (USD): 25,00

This variety may actually change to caerulescens instead of caerulea. It's not a deep blue color, but a very light, almost cream color tending to a bluish tone. In this case we just kept the name on the original label.

Z-1776 *C. loddigesii (striata 'Bastião' x punctata 'Guaxupé')*

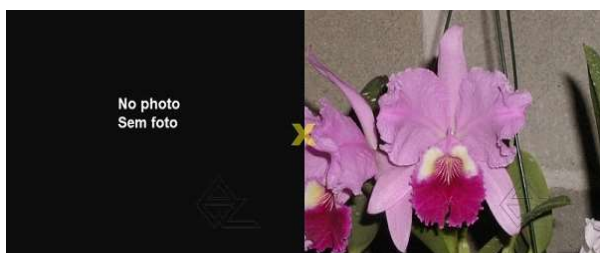

Pot Size (Inches): 3" (BS)

Price (USD): 25,00

Similar to Z-1777. We hope to obtain striata or punctata forms of this species.

C. lueddemanniana

Z-747 *C. lueddemanniana ('No. 1' x dark lip - splash)*

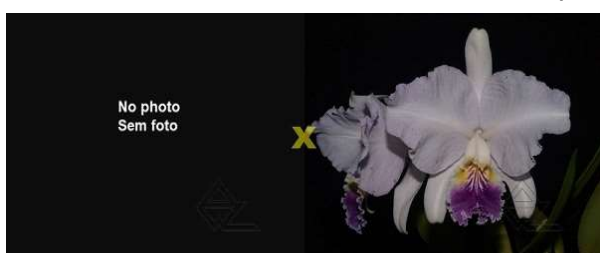

Pot Size (Inches): NBS - BS

Price (USD): 20,00

Few plants available. Two plants with dark colored flowers and excellent shapes. We intend to obtain superior quality flowers. One of the parent plants has a splash in the petals and we hope it will be transmitted.

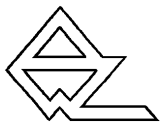

Z-956 *C. lueddemanniana caerulea ('Pedra Azul' x 'Monte Verde')*

Pot Size (Inches): NBS

Price (USD): 35,00

Both plants were selected from previous crosses. They have dark caerulea colors, very good shape and large size.

C. lueddemanniana

Z-962 ***C. lueddemanniana caerulea ('Pedra Azul' x 'Caribe')***

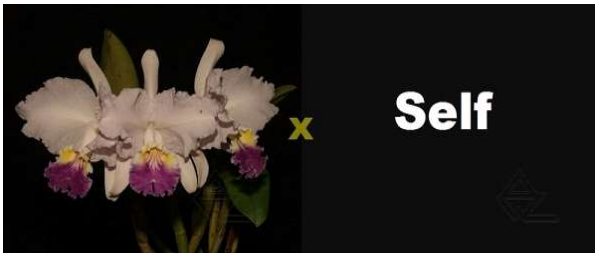

Pot Size (Inches): NBS - BS

Price (USD): 35,00

Similar to Z-956.

Z-1920 ***C. lueddemanniana caerulea 'Sique Sique' x SELF***

Pot Size (Inches): 2 1/2" - 3"

Price (USD): 25,00

Self pollination of one of the best and most famous caerulea (blue) varieties ever found in this species.

Z-796 ***C. lueddemanniana (dark form x 'Labelo Dourado')***

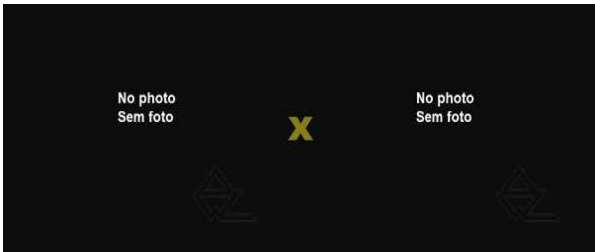

Pot Size (Inches): NBS - BS

Price (USD): 20,00

Crossing of two excellent plants. We expect the plants to reproduce the standards of the parent plants, with strong colors in petals and sepals, and also stronger yellow mark on the lip.

Z-791 ***C. lueddemanniana (dark form x 'America')***

Pot Size (Inches): NBS - BS

Price (USD): 20,00

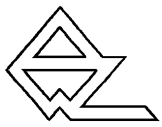

C. lueddemanniana (type) 'America' has superb flower shape and large size.

Z-2598 ***C. lueddemanniana escura ('Boa Vista' x 'Labelo Cheio')***

Pot Size (Inches): 2 1/2"

Price (USD): 20,00

C. lueddemanniana

Z-1188 *C. lueddemanniana escura ('Roja' x 'Orinoco')*

Pot Size (Inches): 3"

Price (USD): 20,00

Similar to Z-780. Both parents have large flowers, excellent flower shape and dark colors.

Z-1189 *C. lueddemanniana dark form ('Roja' x 'Red')*

Pot Size (Inches): 2" (NBS)

Price (USD): 20,00

Both parents have large flowers, excellent flower shape and dark colors.

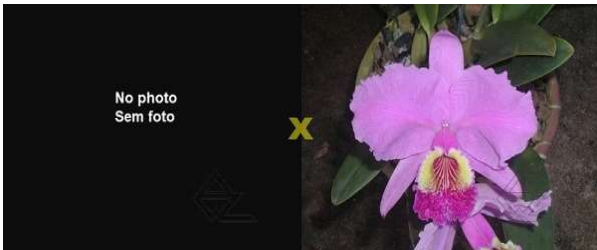

Z-2432 *C. lueddemanniana (flamea aquinada 'Carabobo' x atropurpurea 'Guacamuco')*

Pot Size (Inches): 2 1/2"

Price (USD): 20,00

Z-780 *C. lueddemanniana ('Negrita' x 'Dark')*

Pot Size (Inches): 3"

Price (USD): 20,00

Few plants available. Both parents have large flowers, excellent flower shape and dark colors. These are among the darkest plants in our collection.

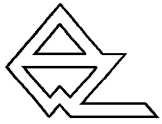

Z-1204 *C. lueddemanniana (rubra 'Dark Giant' x dark 'Fennel IX')*

Pot Size (Inches): NBS - BS

Price (USD): 20,00

Both parents have large flowers, excellent flower shape and dark colors.

Pot Size (Inches): 2 1/2"

Price (USD): 15,00

Z-860 ***C. lueddemanniana ('Royal Flash' x 'Drago')***

Pot Size (Inches): NBS - BS

Price (USD): 20,00

Few plants available. Both plants have large dark colored flowers with excellent shapes. We hope that the offspring will reproduce their parents' characteristics.

Z-776 ***C. luedd. [caerulea ('Siquesique' x 'Amparo') x dark type 'Guacamuco']***

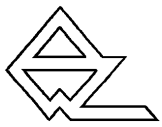

Pot Size (Inches): NBS - BS

Price (USD): 15,00

We expect purple colored flowers with large size and very good shapes.

C. maxima

C. maxima

Z-1435 C. maxima [(Z-521) x rubra (Z-456)]

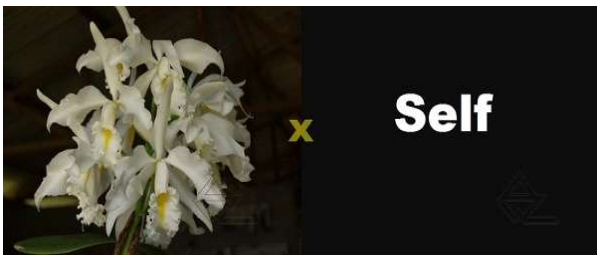

Pot Size (Inches): 3" (NBS)

Price (USD): 30,00

We crossed two dark C. maxima, both selected plants obtained from our previous crosses.

Z-1708 C. maxima alba 'Drago' x SELF

Pot Size (Inches): 2 1/2"

Price (USD): 30,00

Rare alba color form of the lowland type of C. maxima, which has taller pseudobulbs, if compared to the highland population. All seedlings confirm this variety.

Z-1391 C. maxima semi alba 'AWZ' x SELF

Pot Size (Inches): 2 1/2" - 3"

Price (USD): 35,00

Very nice plant with also striata markings on its petals. We believe this cross will confirm this variety.

Z-2695 C. maxima semi alba ('TA' x 'AWZ')

Pot Size (Inches): 2 1/2"

Price (USD): 20,00

C. mendelli

Z-2133 C. mendelli alba 'Clayton' x SELF

Pot Size (Inches): 3"

Price (USD): 35,00

Smaller plants. We hope to achieve nice alba plants. Even in present days, this variety is still not common to be seen.

C. mendelli

Z-1274 *C. mendelli concolor 'Bucaramanga' x SELF*

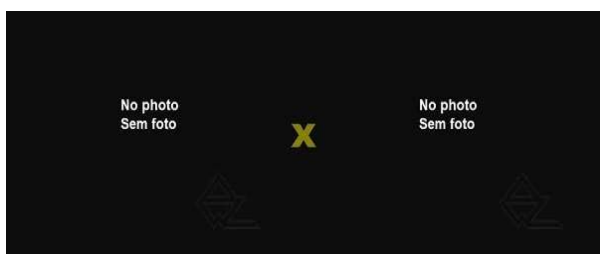

Pot Size (Inches): 3"

Price (USD): 50,00

We expect to reproduce this beautiful and rare variety of this Colombian species.

C. mossiae

Z-1832 *C. mossiae semi alba 'Julieta' x SELF*

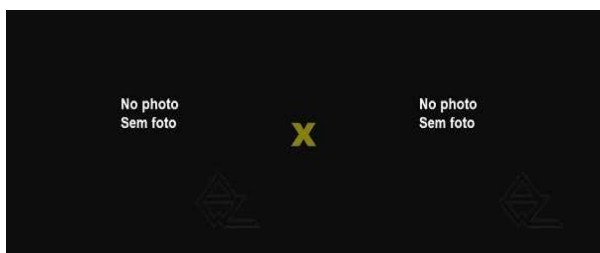

Pot Size (Inches): 2 1/2"

Price (USD): 30,00

Very big flowers.

Z-1795 *C. mossiae semi alba splash 'Caribe' x SELF*

Pot Size (Inches): 2 1/2" - 3"

Price (USD): 30,00

Same as Z-1825.

C. percivaliana

Z-1913 *C. percivaliana alba 'Charito' x SELF*

Pot Size (Inches): 2 1/2"

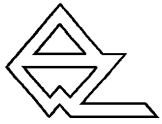

Price (USD): 20,00

Z-1915 *C. percivaliana 'Summit -Mutant' x SELF*

Pot Size (Inches): 2 1/2"

Price (USD): 25,00

C. schilleriana

Z-1262 ***C. schilleriana* ('Água Surda' x 'Olinda')**

Pot Size (Inches): 2 1/2"

Price (USD): 35,00

We expect very nice flowers. *C. schilleriana* 'Olinda' has standard colored flowers for this species, but exceptional flower shape. *C. schilleriana* 'Água Surda' has very large flowers.

Z-2289 ***C. schilleriana* ('Daniel Endringer' x 'Preciosa')**

Pot Size (Inches): 2 1/2"

Price (USD): 30,00

We used two very nice selected *C. schilleriana*.

Z-2459 ***C. schilleriana* ('Daniel Endringer' x 'Sublime')**

Pot Size (Inches): 2" - 2 1/2"

Price (USD): 20,00

Z-973 ***C. schilleriana* ('Ibiraçú' x 'Daniel Endringer')**

Pot Size (Inches): 2 1/2" - 3"

Price (USD): 35,00

C. schilleriana 'Ibiraçú' is one of the best in our collection. It has very good shaped flowers with dark color and almost no spots. *C. schilleriana* 'Daniel Endringer' has the standard color of the species but also excellent flower shape.

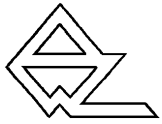

Z-1440 ***C. schilleriana* ('Olinda' x 'Preciosa')**

Pot Size (Inches): 2 1/2"

Price (USD): 35,00

We used two very nice selected *C. schilleriana*.

C. schilleriana

Z-2269 *C. schilleriana* ('Sublime' x 'Preciosa')

Pot Size (Inches): 2 1/2"

Price (USD): 30,00

The *C. schilleriana* 'Sublime' belongs to the cross between *C. schilleriana* 'Labelão' AM-AOS and *C. schilleriana* 'Zé Modolo', which produced the best quality of *C. schilleriana* ever. Similar to Z-2248 and Z-2269.

Z-2249 *C. schilleriana* ('Surpresa' x 'Preciosa')

Pot Size (Inches): 2 1/2"

Price (USD): 30,00

Similar to Z-2248 and Z-2269.

Z-2443 *C. schilleriana* (tipo 'Aphri' SM/JOGA x caerulea 'Sto. Antonio')

Pot Size (Inches): 2" - 2 1/2"

Price (USD): 20,00

Z-2248 *C. schilleriana* ('Zaslawski' x 'Surpresa')

Pot Size (Inches): 2 1/2"

Price (USD): 30,00

Similar to Z-2249 and Z-2269. Both plants have superior quality.

C. schofieldiana

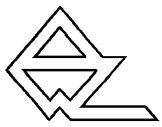

Z-1823 *C. schofieldiana* ('Caioaba' x 'Santa Leopoldina')

Pot Size (Inches): 2 1/2"

Price (USD): 25,00

Similar to Z-1819.

C. schofieldiana

Z-1821 *C. schofieldiana* (dark 'Gloriosa' x 'GU')

Pot Size (Inches): 2 1/2"

Price (USD): 25,00

Similar to Z-1819.

Z-1260 *C. schofieldiana* ('GU' x 'Jubarte')

Pot Size (Inches): 2 1/2" (NBS)

Price (USD): 25,00

Similar to cross Z-1261. *C. schofieldiana* 'jubarte' is brown colored with small spots on petals/sepals and also great shape.

Z-1819 *C. schofieldiana* ('GU' x 'Caioaba')

Pot Size (Inches): 2 1/2" - 3"

Price (USD): 25,00

We used two of the best *C. schofieldiana* we have in our collection. *C. schofieldiana* 'GU' has darker flowers and spectacular shape. *C. schofieldiana* 'Caioaba' has the regular color for this species, large flowers and also spectacular flower shape. Both plants were originated from *C. schofieldiana* found in Espirito Santo State many years ago. They usually have larger flowers but worse shape if compared to the plants from Bahia State (north of Espirito Santo).

Z-1824 *C. schofieldiana* ('Onça Pintada' x 'Caioaba')

Pot Size (Inches): NBS

Price (USD): 25,00

C. schofieldiana 'Onça Pintada' (means Jaguar) has a higher concentration of small spots. The *C. schofieldiana* 'Caioaba' is a "top quality" plants in our collection.

Z-953 *C. schofieldiana* ('Potira' x 'Janaína')

Pot Size (Inches): 2 1/2" (NBS)

Price (USD): 25,00

Two very nice plants from this species. They were both originated from plants found in Bahia State, wich usually have smaller but better shaped flowers if compared to plants from Espirito Santo State. Both plants also have less spots on the flowers.

C. skinneri

C. skinneri

Z-2660 *C. skinneri* (*caerulescens* x *semi alba* 'Danae')

Pot Size (Inches): 2 1/2"

Price (USD): 15,00

C. tenuis

Z-1699 *C. tenuis* ('Brasileirinha' x 'Seabra')

Pot Size (Inches): 2 1/2"

Price (USD): 20,00

C. tenuis is endemic to a relatively small area in the State of Bahia - Brasil. Plants are bifoliate, with skinny pseudobulbs that can reach three feet in height. Flowers look similar to the ones from *C. bicolor* but in the case of *C. tenuis*, the lip column is not exposed and is covered by the lip side lobes, making flowers more attractive in our opinion. Both plants used in this cross have superior flower shapes.

Z-2699 *C. tenuis* ('Seabra' x 'Dark King')

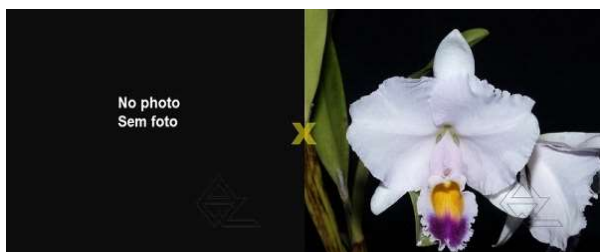

Pot Size (Inches): 2 1/2"

Price (USD): 20,00

C. trianae

Z-1228 *C. trianae caerulea* ('Pedra Azul' x 'Camila')

Pot Size (Inches): NBS

Price (USD): 60,00

This is a promising cross. *C. trianae caerulea* 'Camila' has flowers with exceptional shape and overlapping petals. *C. trianae caerulea* 'Pedra Azul' has similar qualities. We hope to reproduce this rare blue variety with also exceptional flower shape.

C. trianae

Z-2980 *C. trianae* (concolor 'Nublado' x semi alba 'Esquecida')

Pot Size (Inches): 2 1/2"

Price (USD): 20,00

Z-1051 *C. trianae* ('Fine Variety' x 'Junio')

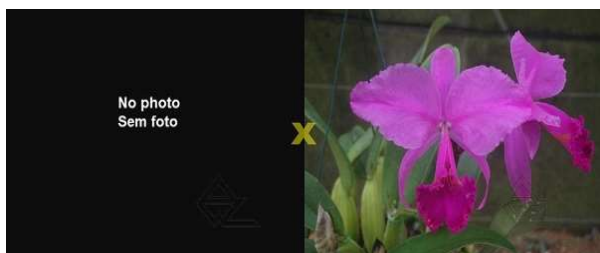

Pot Size (Inches): 2 1/2" - 3"

Price (USD): 20,00

Both parent plants have lilac flowers (type) but *C. trianae* 'Junio' has darker color. They also have very good flower shapes.

Z-906 *C. trianae* ('Junio' x 'Sangre de Toro II')

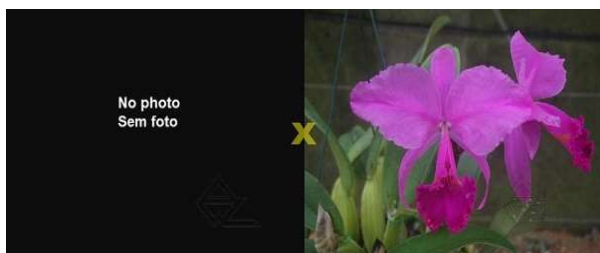

Pot Size (Inches): 3 1/2" - 4"

Price (USD): 25,00

Crossing of two dark colored plants. We hope to improve flower shape of 'Sangre de Toro'.

Z-1398 *C. trianae rubra* ('Eclipse' x 'Sangre de Toro II')

Pot Size (Inches): 2 1/2"

Price (USD): 30,00

Two very dark colors in *C. trianae*. Also known as "sangre de toro". The *C. trianae* 'Eclipse' has also very nice flower shape.

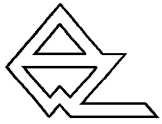

Z-1251 *C. trianae* 'Sangre de Toro II' x 'Martinelli')

Pot Size (Inches): 3 1/2" (NBS)

Price (USD): 30,00

We expect dark colors. *C. trianae* 'Martinelli' has very wide petals.

C. trianae

Z-1232 C. trianae tipo ('Fine Variety' x 'India')

Pot Size (Inches): 3"

Price (USD): 25,00

Both plants have darker flowers and excellent shapes. C. trianae 'India' has also very large flowers.

C. velutina

Z-2718 C. velutina ('Pomerana' x 'Santa Teresa')

Pot Size (Inches): 2 1/2"

Price (USD): 25,00

C. walkeriana

Z-2797 C. walkeriana [rubra pelorica 'Esperada' x (rubra flamea 'Portinari' x SLF)]

Pot Size (Inches): 2 1/2"

Price (USD): 20,00

Z-2772 C. walkeriana [tipo 'Rio Claro' x (rubra flamea 'Portinari' x SLF)]

Pot Size (Inches): 2 1/2"

Price (USD): 20,00

C. warneri

C. warneri

Z-2863 ***C. warneri alba ('Jacó Silva' x 'Da. Mercedes')***

Pot Size (Inches): 2 1/2"

Price (USD): 20,00

Z-2986 ***C. warneri alba 'Mata Fria' x SELF***

Pot Size (Inches): 2 1/2"

Price (USD): 15,00

Z-2995 ***C. warneri (albescens 'Mausi Stern' x suave flamea 'E. Santo')***

Pot Size (Inches): 2 1/2"

Price (USD): 20,00

Z-2852 ***C. warneri (albescens 'Santa Teresa' x alba 'Eudes Perin')***

Pot Size (Inches): 2 1/2" - 3"

Price (USD): 15,00

Z-2847 ***C. warneri (albescens venosa 'Da. Josefina' x amesiana 'Mem R. Kautsky')***

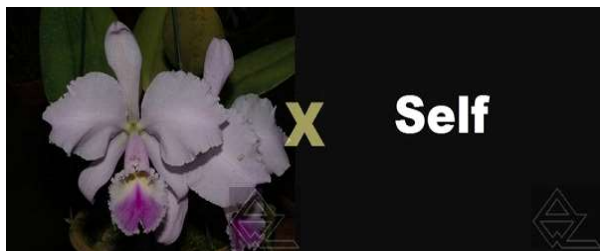

Pot Size (Inches): 3"

Price (USD): 20,00

C. warneri

Z-2848 C. warneri amesiana 'Mem R. Kautsky' (M-EC) x SELF

Pot Size (Inches): 2 1/2"

Price (USD): 20,00

Z-2386 C. warneri (amesiana 'Mem. R. Kautsky' x suave flamea 'ES')

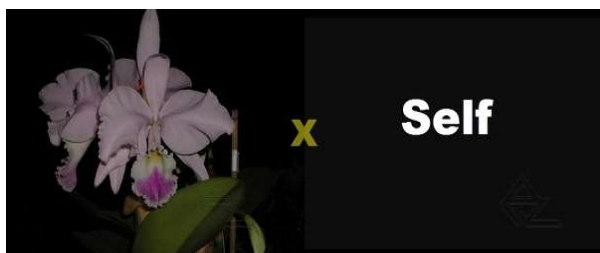

Pot Size (Inches): 2 1/2" - 3"

Price (USD): 20,00

We expect light colors or even "types". Both plants that were used have rare color forms for this species.

Z-1852 C. warneri amesiana 'Sta Leopoldina' x SELF

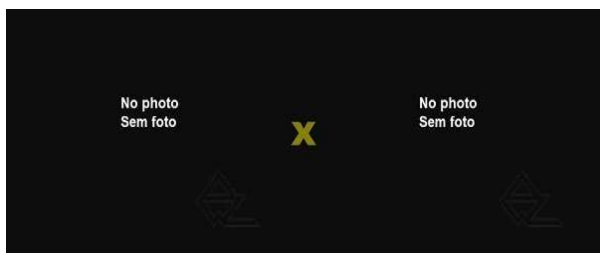

Pot Size (Inches): 2 1/2"

Price (USD): 20,00

C. warneri amesiana 'Santa Leopoldina' has big flowers and also nice shape for the species. The amesiana color form means that the flowers have petals, sepals and lip with lighter tones of pink if compared to a "type" plant.

Z-1967 C. warneri caerulea 'Boa Noite' x SELF

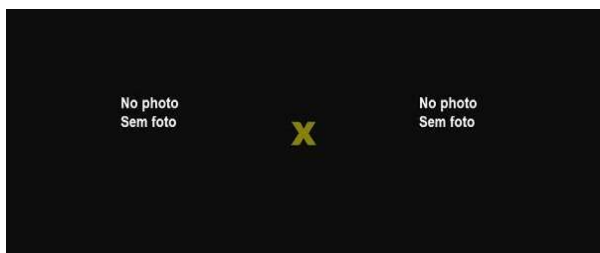

Pot Size (Inches): 2 1/2"

Price (USD): 20,00

The plant used is the selected result of one of our own crosses.

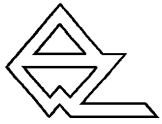

Z-1998 C. warneri caerulea ('DAR' x 'Raasch')

Pot Size (Inches): 2 1/2" - 3"

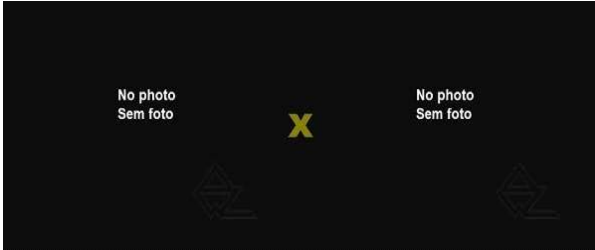

Price (USD): 20,00

We crossed two dark caerulea and expect to obtain this variety, which is nowadays still hard to find in this species. Similar to Z-1864.

C. warneri

Z-2504 ***C. warneri (caerulea 'Elsinho' x 'Raasch')***

Pot Size (Inches): 2 1/2" - 3"

Price (USD): 20,00

Z-1954 ***C. warneri caerulea 'Nininha' x SELF***

Pot Size (Inches): 2 1/2"

Price (USD): 20,00

Famous old plant. Considered to be one of the nicests caerulea found in this species.

Z-1511 ***C. warneri caerulea ['Suzuki' x ('Carolina' x SELF)]***

Pot Size (Inches): 2 1/2" - 3"

Price (USD): 35,00

Many caerulea crossings within this species did not confirm this variety. Although no plants bloomed yet, we expect at least a high percentage of caerulea.

Z-1864 ***C. warneri caerulea ('Suzuki' x 'Z-351')***

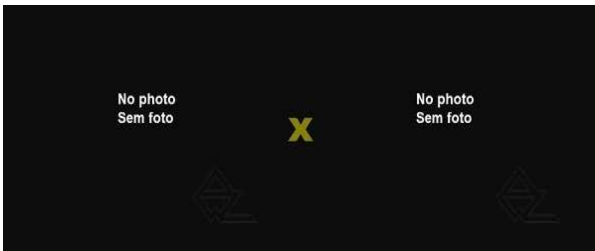

Pot Size (Inches): 3"

Price (USD): 35,00

We crossed two dark caerulea and expect to obtain this variety, which is nowadays still hard to find in this species.

Z-1996 ***C. warneri caerulea ('Todos os Santos' x 'Raasch')***

Pot Size (Inches): 3"

Price (USD): 20,00

Similar to Z-1864.

C. warneri

Z-1853 *C. warneri concolor 'Bonificação' x SELF*

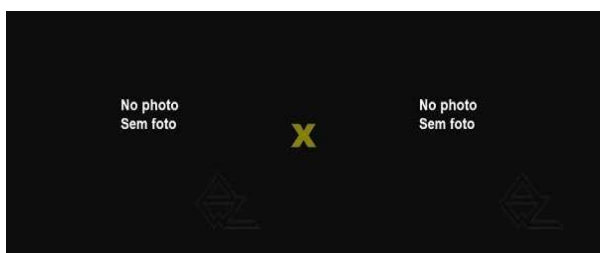

Pot Size (Inches): 2 1/2"

Price (USD): 20,00

We expect to obtain the concolor variety.

Z-1453 *C. warneri concolor 'Castro' x SELF*

Pot Size (Inches): 2 1/2"

Price (USD): 30,00

Beautiful variety of this species with also very good flower shape. Sometimes we also can obtain albas from the self pollination of a concolor.

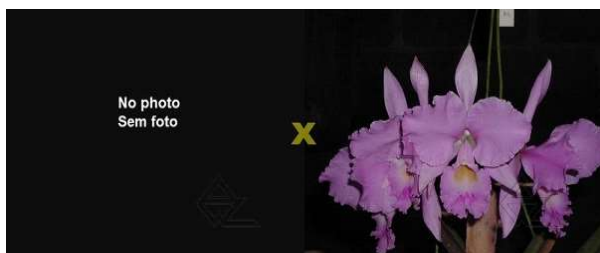

Z-2861 *C. warneri concolor ('Vento Sul' x 'Junior')*

Pot Size (Inches): 2 1/2"

Price (USD): 20,00

Z-1957 *C. warneri (concolor 'Z-300' x striata 'EC')*

Pot Size (Inches): 3"

Price (USD): 20,00

The *C. warneri concolor* 'Z-300' came from a cross between two *venosas* (variety with veins or stripes on the lip). The *C. warneri striata* 'Euclidio Colnago' is a superb almost concolor variety. It has markings (*striata*) on the lip. We hope to achieve good shaped flowers, with concolor and *striata* color forms.

Z-2849 *C. warneri ('Dr. Laranja' x amesiana 'Mem R. Kautsky')*

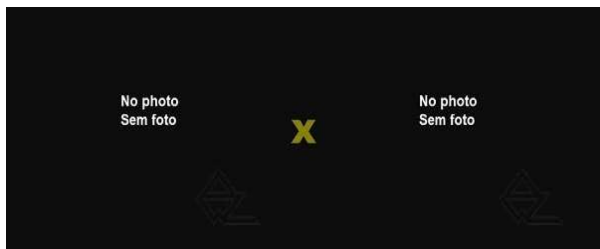

Pot Size (Inches): 2 1/2"

Price (USD): 15,00

C. warneri

Z-2014 C. warneri escura integra 'São Rafael' x SELF

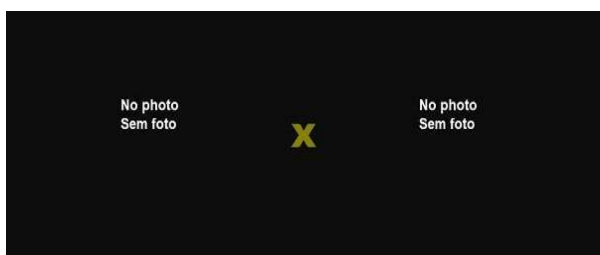

Pot Size (Inches): 2 1/2"

Price (USD): 20,00

Nice selection of a plant with dark flowers and full colored lip. Dark forms are hard to find in this species.

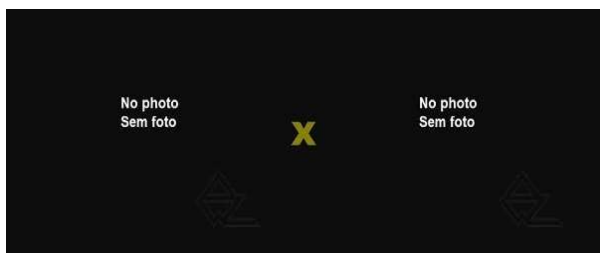

Z-2735 C. warneri (integra orlata pincelada 'Z-529' x integra orlata flamea 'Negrita')

Pot Size (Inches): 2 1/2"

Price (USD): 20,00

Z-840 C. warneri integra-orkata-pincelada 'Superba' x SELF

Pot Size (Inches): 3"

Price (USD): 35,00

We expect to obtain qualities similar to the parent plant, which is rare in this species. "Integra" means that the lip doesn't have a white margin on it's border. "Orlata" means that the dark color of the lip is present in all it's circumference and "pin

Z-2011 C. warneri ('Lucilio Leite' x amesiana 'Mem. R.Kautsky')

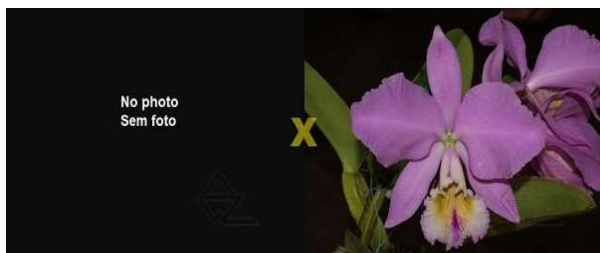

Pot Size (Inches): 2 1/2"

Price (USD): 20,00

Especulative cross between two very beautiful plants and distinct color foms: C. warneri 'Lucilio Leite' looks like a semi alba but it actually has a light pink tone on its petals and sepals. The C. warneri amesiana 'Mem. Roberto Kautski' used is in fact a mericlone of the original plant, which probably suffered a mutation and have superior shape and flower size if compared to the original plant.

Z-2859 C. warneri (orkata x extra venosa 'Caliman')

Pot Size (Inches): 2 1/2"

Price (USD): 15,00

C. warneri

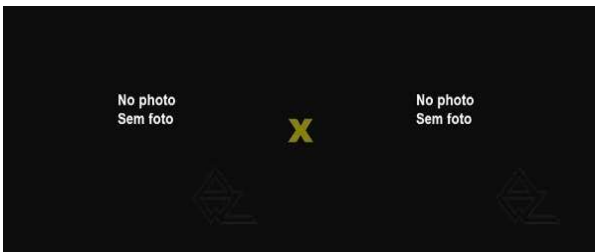

Z-2713 **C. warneri (rubra 'Jetibá' x escura 'Belezinha')**

Pot Size (Inches): 2 1/2"

Price (USD): 20,00

Z-690 **C. warneri semi alba (good shape x 'Rubi')**

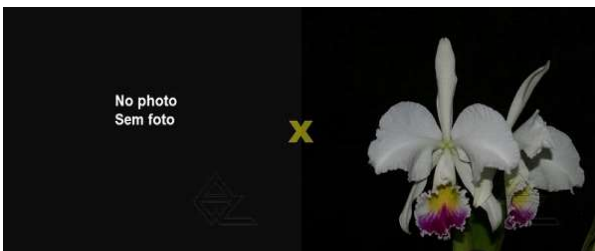

Pot Size (Inches): 3 1/2" (NBS)

Price (USD): 25,00

Both parents are selections of previous crossings and we expect even better results.

Z-819 **C. warneri semi alba ('Alto Parajú' x 'Guindani')**

Pot Size (Inches): 3" (NBS)

Price (USD): 35,00

Similar to Z-816.

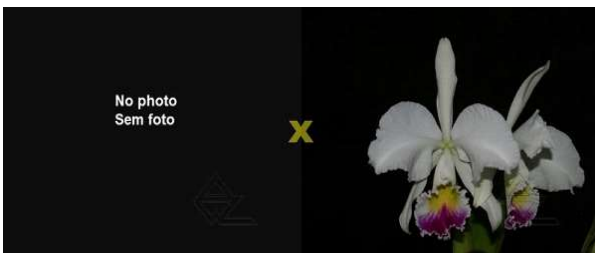

Z-3000 **C. warneri (semi alba 'Ave Maria' x suavissima 'Ricardo Bells')**

Pot Size (Inches): 2 1/2"

Price (USD): 20,00

Z-816 **C. warneri semi alba ('Goiabeiras' x 'Guindani')**

Pot Size (Inches): 3" (NBS)

Price (USD): 35,00

C. warneri semi alba 'Goiabeiras' was selected among many plants from our cross Z-108 and C. warneri semi alba 'Guindani' is considered by us as being one of the nicest semi alba in this species, although not common to see in collections.

C. warneri

Z-3004 ***C. warneri (semi alba 'Gustavo' x semi alba orlata 'Z-449')***

Pot Size (Inches): 2 1/2"

Price (USD): 20,00

Z-1661 ***C. warneri semi alba ('Pater Noster' x 'Guindani')***

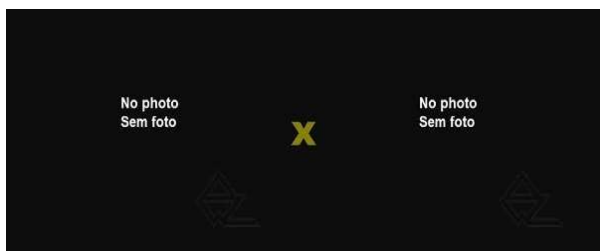

Pot Size (Inches): 3 1/2" (NBS)

Price (USD): 35,00

C. warneri semi alba 'Pater Noster' has large flowers and very good shape. *C. warneri* semi alba 'Guindani' is also one of the nicest semi alba.

Z-567 ***C. warneri semi alba ('Pedra Azul' x 'Nr. 1')***

Pot Size (Inches): 3 1/2"

Price (USD): 35,00

The objective is to obtain semi alba variety. Both plants are selections of our previous crosses.

Z-2697 ***C. warneri (semi alba venosa 'Chuvisco' x semi alba 'Rio das Farinhas')***

Pot Size (Inches): 2 1/2"

Price (USD): 20,00

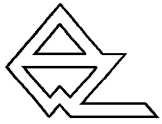

Z-2712 ***C. warneri (trilabelo 'EM' x escura 'Belezinha')***

Pot Size (Inches): 2 1/2"

Price (USD): 20,00

C. warszewiczii

C. warscewiczii

Z-2730 ***C. warscewiczii* (atropurpurea 'Suprema' x 'Goliath')**

Pot Size (Inches): 2 1/2"

Price (USD): 22,00

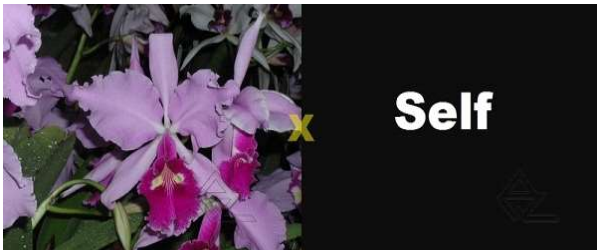

Z-2731 ***C. warscewiczii* ('Goliath' x atropurpurea 'Superba')**

Pot Size (Inches): 2 1/2"

Price (USD): 22,00

Z-1011 ***C. warscewiczii* tipo 'Hector' x SELF**

Pot Size (Inches): NBS - BS

Price (USD): 30,00

Self pollination of a selected *C. warscewiczii*.

Z-3008 ***C. warscewiczii* ('Z-133' x 'Gigante do Cuete')**

Pot Size (Inches): 2 1/2"

Price (USD): 22,00

***Dendrobium* species**

Z-1794 ***Den. bullenianum* (Syn. *Den. topaziacum*)**

Pot Size (Inches): 2 1/2"-25cm

Price (USD): 30,00

Beautiful orange colored *Dendrobium* from the Philippines (Synonym is *Dendrobium topaziacum*). Easy to grow in warm conditions. Does not need an extreme dry period in order to bloom well.

Dendrobium species

AZ-83 *Den. wassellii* (=Dockrillia wassellii)

Pot Size (Inches): NBS-BS

Price (USD): 25,00

Encyclia species

Z-2495 *E. alata*

Pot Size (Inches): 2 1/2"

Price (USD): 15,00

Beautiful Encyclia from Central America all the way to Mexico.

Z-2967 *E. bractescens*

Pot Size (Inches): 2 1/2"

Price (USD): 15,00

Z-2442 *E. cordigera* (*albina* x *rosea*)

Pot Size (Inches): 2 1/2" (NBS)

Price (USD): 20,00

Z-2405 *E. dichroma*

Pot Size (Inches): 2 1/2"

Price (USD): 20,00

Most plants are blooming with purple lip and a few have white lip with just a purple marking. No albas.

Encyclia species

Z-2974 *E. duveeni*

Pot Size (Inches): 2 1/2"

Price (USD): 25,00

Z-2171 *E. ghillanyi*

Pot Size (Inches): 2 1/2"

Price (USD): 15,00

Species native from Bahia State. Flowers look like *Encyclia dichroma* but the plant usually gets bigger and with longer rizhomes. Flower stem is also longer in most cases, if compared to *E. dichroma* and can reach more than four feet in height. Flowers are purple and around two inches in diameter. Requires bright light and ventilation, warm to intermediate climate and less waterings during resting period (winter). Flower stem can reach 4 feet in height, bearing 2 inches purple flowers.

Z-3012 *E. gonzalezii*

Pot Size (Inches): 2 1/2"

Price (USD): 20,00

Z-2302 *E. guatemalensis*

Pot Size (Inches): 2 1/2" (BS)

Price (USD): 15,00

Easy to grow. Native from Central America.

Z-2616 *E. hanburyi*

Pot Size (Inches): 2 1/2"

Price (USD): 15,00

Encyclia species

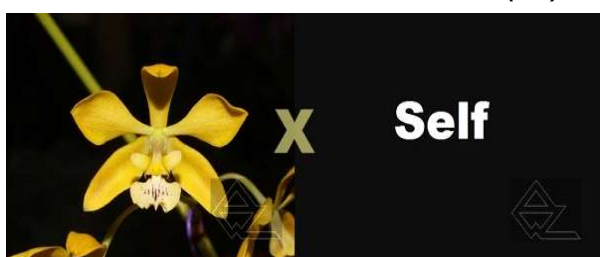

Z-2836 ***E. mooreana***

Pot Size (Inches): 2 1/2"

Price (USD): 20,00

Z-2688 ***E. oncioides semi alba (AV) x SELF***

Pot Size (Inches): 2 1/2"

Price (USD): 15,00

Z-2686 ***E. spiritusantensis albina x SELF***

Pot Size (Inches): 2" - 2 1/2"

Price (USD): 35,00

Rare color form.

Z-2341 ***E. spiritusantensis escura (dark) (1) x (2)***

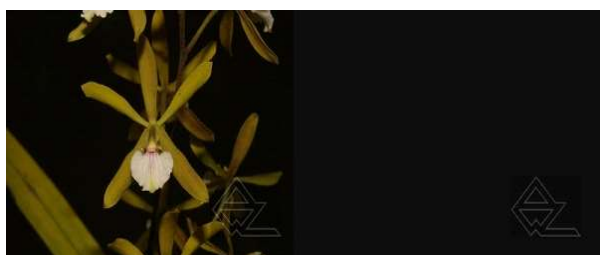

Pot Size (Inches): 2 1/2"

Price (USD): 20,00

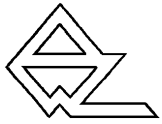

We used one dark form and one light colored form in order to achieve variations within the seedlings. Species originated from the northwest area of Espírito Santo State-Brazil. They need bright light (almost full sun), lots of air movement and a drier rest period during winter. Flower stems may reach five feet in height.

Z-2963 ***E. stellata***

Pot Size (Inches): 2 1/2"

Price (USD): 20,00

Encyclia species

Z-2506 ***E. tampensis***

Pot Size (Inches): 2 1/2" (NBS)

Price (USD): 15,00

Small sized Encyclia, native to southern Florida, Bahamas and Cuba. Known as the "butterfly orchid", plants can form clusters and produce many flower stems.

Epidendrum species

AZ-41 ***Epi. calanthum***

Pot Size (Inches): NBS

Price (USD): 15,00

Easy to grow.

Z-1566 ***Epi. ciliare***

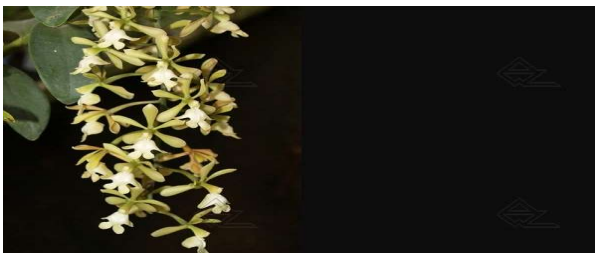

Pot Size (Inches): 2 1/2" (NBS)

Price (USD): 12,00

Widespread species from Central and South America. Plants look like a Cattleya and flowers are green with a white hairy-lip.

Z-1676 ***Epi. coronatum***

Pot Size (Inches): 2 1/2" -15cm

Price (USD): 15,00

Widespread species, from Central and South America. It's an easy grower and produces an arched flower spike, with nice cream colored flowers.

Z-1604 ***Epi. paniculatum***

Pot Size (Inches): NBS

Price (USD): 15,00

Easy to grow. Plants can get tall and produce a cluster of flowers which is very decorative.

Z-2491 *C. Calimani* (= *C. harrisoniana trilabelo* x *C. schofieldiana*)

Pot Size (Inches): 2 1/2"

Price (USD): 15,00

Z-1679 *C. Kautsky*

Pot Size (Inches): 2 1/2" - 3"

Price (USD): 15,00

Natural hybrid between *C. harrisoniana* and *C. warneri*. We used two selected plants.

Z-967 *C. leopoldii 'Dark Show'* x *C. aurea*

Pot Size (Inches): 3" (NBS)

Price (USD): 20,00

We may get some interesting plants with this primary hybrid. *C. aurea* has yellow petals and sepals with a very showy lip, full of purple veins. *C. leopoldii* is a bifoliate *Cattleya* with spotted brown petals/sepals and purple lip.

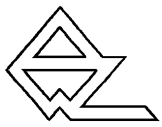

Z-968 *C. leopoldii 'Dark Show'* x *L. purpurata rubra 'AWZ'*

Pot Size (Inches): 3"

Price (USD): 15,00

Hybrid registered as LC. ELEGANS. We used two very dark colored flowers of these two species. This is a reproduction of a natural hybrid found in southern Brasil years ago.

HÍBRIDOS / HYBRIDS

Z-2590 *BC. Kamegaoka (=C. loddigesii alba x Brassavola glauca)*

Pot Size (Inches): 2 1/2"

Price (USD): 10,00

Z-1394 *C. schilleriana 'Água Surda' x C. Daphne 'Bordeaux'*

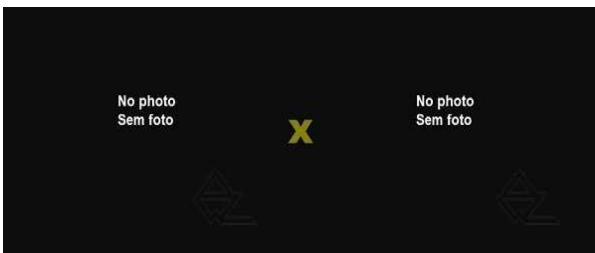

Pot Size (Inches): 2 1/2" - 3"

Price (USD): 15,00

C. schilleriana 'Água Surda' has very large and well shaped flowers. *C. Daphne* 'Bordeaux' has dark petals/sepalas and very intense colored lip. We expect intense colors.

Z-2444 *LC. Cheergirl (=C. walkeriana x L. pumila x C. labiata)*

Pot Size (Inches): 2 1/2"

Price (USD): 15,00

LC. CHEERGIRL.

Z-2116 *LC. Ericoi (C. warneri alba x L. praestans alba)*

Pot Size (Inches): 2 1/2" (NBS)

Price (USD): 15,00

This is a primary and also natural hybrid registered as LC. ERICOI. In the past, a few plants were found in nature but never one color variety different than purple. We already achieved the alba form in one previous cross but this time we used a different *C. warneri* alba. Plants are easy to grow and make nice and decorative setups when more than one are mounted together.

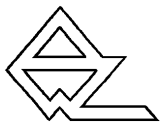

Z-2462 *C. Whitei alba*

Pot Size (Inches): 2 1/2"

Price (USD): 30,00

We expect to obtain the alba form of *C. Whitei*. This color form was never seen before.

HÍBRIDOS / HYBRIDS

Z-3001 *L. milleri escura* x *L. sincorana rubra* 'Eclipse'

Pot Size (Inches): 2" - 2 1/2"

Price (USD): 15,00

Z-2845 *L. praestans alba* x *C. warneri suavissima* 'Ricardo Bells'

Pot Size (Inches): 2 1/2" (NBS0)

Price (USD): 15,00

Z-2480 *LC. Samba Crown* (= *L. sincorana* x *C. warneri - caerulea forms*)

Pot Size (Inches): 2 1/2"

Price (USD): 15,00

L. alaorii

Z-2757 *L. alaori escura* ('Carnaval' x 'Gemini I')

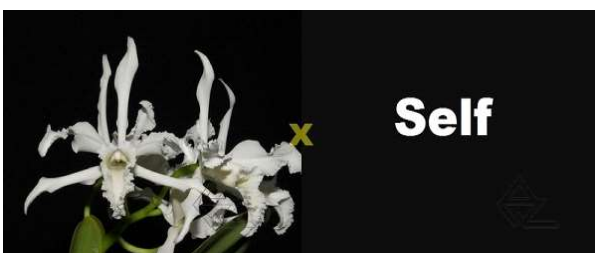

Pot Size (Inches): 2 1/2" (NBS)

Price (USD): 25,00

L. crispa

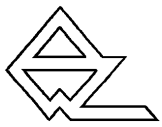

Z-1867 *L. crispa alba* 'Blanca' x SELF

Pot Size (Inches): 2 1/2" - 3"

Price (USD): 35,00

Rare variety. Flowers are complete white and have the characteristic crisped petals and sepals for this species.

L. crispera

Z-2093 *L. crispera aurea* x **SELF**

Pot Size (Inches): 2 1/2"

Price (USD): 25,00

Z-1874 *L. crispera carnea* x **SELF**

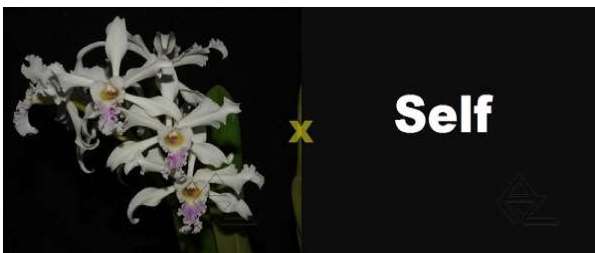

Pot Size (Inches): 2 1/2"

Price (USD): 25,00

Rare color form, with light pink lip. Flower shape is not good, as in all *L. crispera*.

Z-997 *L. crispera carnea 'Mignon'* x **SELF**

Pot Size (Inches): 2 1/2"

Price (USD): 35,00

L. crispera occurs in Rio de Janeiro State, in altitudes around 2600 feet above sea level. They grow naturally on trees, but also quite common to be found growing on rocks. This is a rare variety with light pink tone in the lip. Flowers are crisped but with much better shape that the majority of the plants that we have seen.

Z-1697 *L. crispera flamma* 'Baronesa' x **SELF**

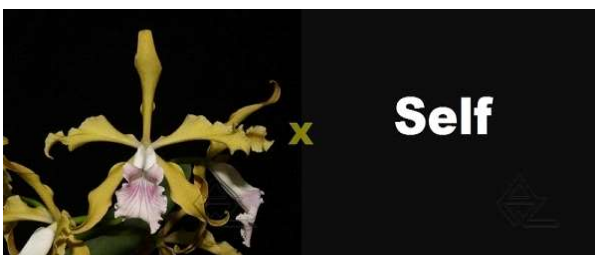

Pot Size (Inches): 3"

Price (USD): 35,00

Petals are white but with a strong splash marking on them, making it an unusual and rare variety for this species. Smaller size.

L. grandis

Z-1416 *L. grandis caerulea venosa 'Estrela do Norte'* x **SELF**

Pot Size (Inches): 2 1/2"

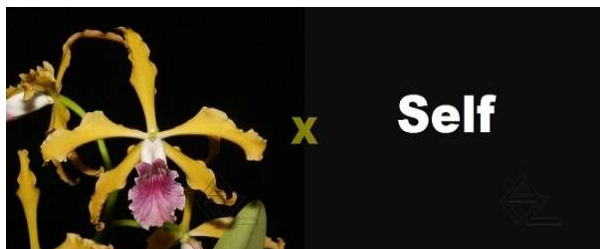

Price (USD): 40,00

It's difficult to find color varieties in *L. grandis* thus making this cross a very rare offering. In the parent plant, the bluish color can be noticed only in the veins deeper inside the lip. Three plants already bloomed and confirmed this color form.

L. grandis

Z-1925 *L. grandis* labelo vinho 'Red Wine' x **SELF**

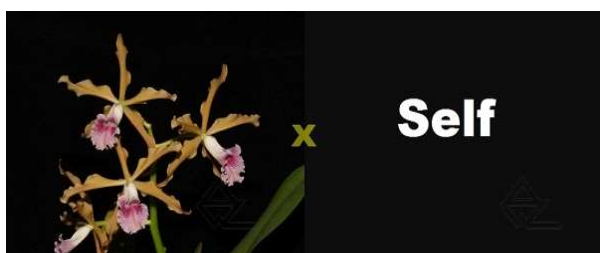

Pot Size (Inches): 2 1/2"

Price (USD): 20,00

The plant used has a dark wine colored lip, making a nice contrast with the lighter brown petals and sepals.

Z-1419 *L. grandis* tipo 'Edmundo' x **SELF**

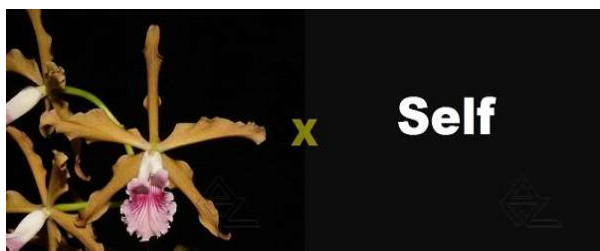

Pot Size (Inches): 2 1/2"

Price (USD): 20,00

Similar to Z-1418. Nice plant - standard characteristics for this species.

Z-1418 *L. grandis* tipo 'Edmundo Num. 04' x **SELF**

Pot Size (Inches): 2 1/2"

Price (USD): 20,00

This species is not commonly offered although we think plants are really beautiful. Growers usually don't know the varieties and most plants produce "skinny" flowers. We are offering a self pollination of a selected plant.

L. jongheana

Z-2272 *L. jongheana* ('581' x rosada 'Ouro Preto')

Pot Size (Inches): 2 1/2"

Price (USD): 30,00

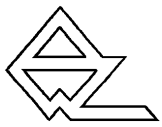

Z-1807 *L. jongheana* ('Z' x 'HG')

Pot Size (Inches): 2 1/2"

Price (USD): 30,00

L. marcaliana

L. marcaliana

Z-2029 *L. marcaliana*

Pot Size (Inches): 2 1/2" (NBS)

Price (USD): 25,00

Rare species. *L. harpophylla*, *L. kautskyi* and *L. marcaliana* can be considered to be close related. The first two occur in Espirito Santo State and the less known *L. marcaliana* occur in Bahia State (farther north). *L. marcaliana*'s main difference from the other two is the smaller and narrower lip. Plants are small but already blooming. They need warm to intermediate conditions and good humidity. Plants also like to be mounted.

L. perrinii

Z-1582 *L. perrinii concolor ('AWZ' x 'HG')*

Pot Size (Inches): 2 1/2"

Price (USD): 30,00

The concolor variety is quite rare and very beautiful in *L. perrinii*. We expect to reproduce this variety.

Z-1153 *L. perrinii (concolor 'AWZ' x delicata 'AM')*

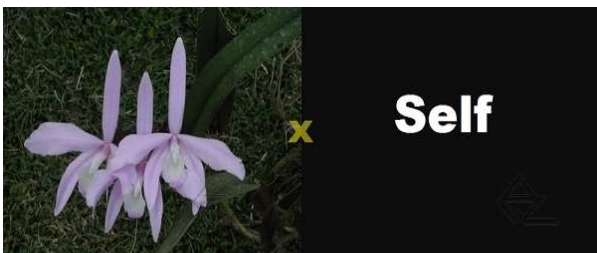

Pot Size (Inches): 2 1/2"

Price (USD): 23,00

The *L. perrinii delicata 'AM'* has flowers with almost imperceptible pink color (looks more like an alba), exceptional shape and also large size. This is a top quality plant among this species. When crossed with an also high standard concolor, we hope t

Z-1583 *L. perrinii concolor 'HG' xSELF*

Pot Size (Inches): 2 1/2"

Price (USD): 35,00

Rare color form of this species. *L. perrinii* has become rare in cultivation, and most of the varieties can be found only in a few old plant collections.

Z-1584 *L. perrinii (delicata 'AM' x semi alba 'AWZ')*

Pot Size (Inches): 2 1/2"

Price (USD): 23,00

We may obtain flowers with light colored petals and sepals and purple lip. Highly speculative cross.

L. perrinii

Z-1154 *L. perrinii (delicata 'AM' x semi alba 'WF')*

Pot Size (Inches): 2 1/2"

Price (USD): 23,00

The *L. perrinii* delicata 'AM' has flowers with almost imperceptible pink color (looks more like an alba), exceptional shape and also large size. This is a top quality plant among this species. When crossed with an also high standard semi alba, we may o

Z-1579 *L. perrinii (delicata 'AM' x alba 'RK')*

Pot Size (Inches): 2 1/2"

Price (USD): 35,00

The *L. perrinii* delicata 'AM' is one of the best in our collection, with large flowers and exceptional shape for this species. It has an almost imperceptible pink tone on the lip so it's not a true alba. We expect albas or very light purple tones.

Z-1155 *L. perrinii (delicata 'AM' x semi alba amoena 'AWZ')*

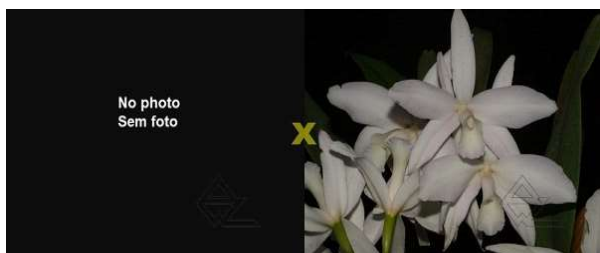

Pot Size (Inches): 2 1/2"

Price (USD): 23,00

Similar to Z-1153.

Z-1387 *L. perrinii ('Fantasia' x delicata 'AM')*

Pot Size (Inches): 2 1/2"

Price (USD): 23,00

L. perrinii 'Fantasia' has unusual purple markings on its petals. This speculative cross is intended to obtain larger flowers and better shapes with the use of the *L. perrinii* delicata 'AM', but in this case with colored forms.

L. praestans

Z-2568 *L. praestans rosada*

Pot Size (Inches): 2 1/2" (NBS)

Price (USD): 20,00

Plants are blooming with light purple tones.

Price (USD): 20,00

L. pumila

Z-3050 *L. pumila escura ('Do toco de café' x escura 'Do toco')*

Pot Size (Inches): 2 1/2"

Price (USD): 35,00

Z-2555 *L. pumila (oculata 'Imperatriz' x caerulea 'OK')*

Pot Size (Inches): 2 1/2"

Price (USD): 20,00

Z-2545 *L. pumila (vinho 'Vinho' x oculata 'Imperatriz')*

Pot Size (Inches): 2 1/2"

Price (USD): 20,00

Z-2890 *L. pumila vinicolor ('R.Spadim' x 'Vinho')*

Pot Size (Inches): 2 1/2"

Price (USD): 80,00

L. purpurata

L. purpurata

Z-1481 *L. purpurata (atropurpurea 'Black' x atro-rubra)*

Pot Size (Inches): 3" (NBS)

Price (USD): 23,00

Both plants have flowers where the lip is fully dark (from base to edge) making a high contrast with the light colored petals and sepals.

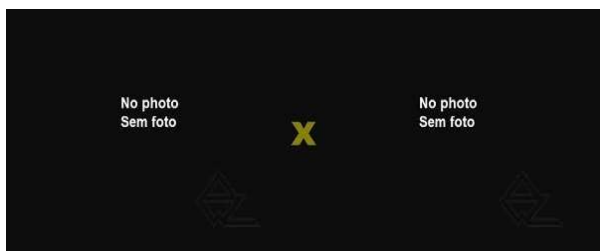

Z-2503 *L. purpurata carnea ('Pitanga' x 'Cereja')*

Pot Size (Inches): 2 1/2"

Price (USD): 25,00

Z-1480 *L. purpurata graciana ('Ano Novo' x 'Reis Magos')*

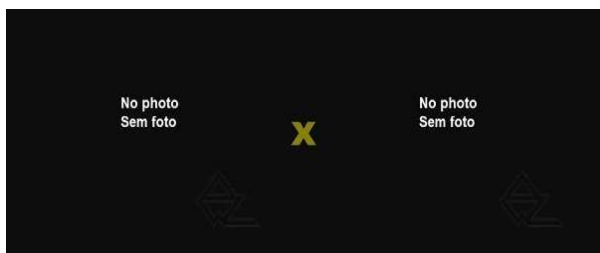

Pot Size (Inches): NBS

Price (USD): 25,00

Unusual variety. Flowers are white except for rose veins on the lip. Similar to the "russeliana" variety.

Z-1498 *L. purpurata (graciana 'Reis Magos' x russeliana 'Reis Magos')*

Pot Size (Inches): 3" (NBS)

Price (USD): 25,00

Similar to Z-1480.

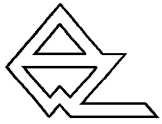

Z-1272 *L. purpurata semi alba ('Deschamps' x 'Cindarosa')*

Pot Size (Inches): 3 1/2" (NBS)

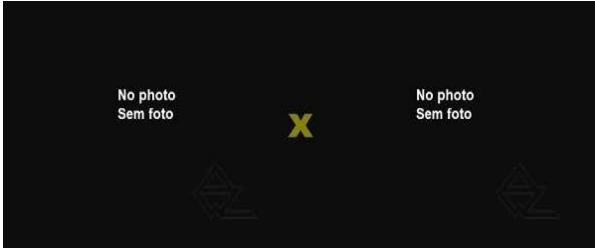

Price (USD): 24,00

We expect to obtain semi albas or almost ones with light colored petals and sepals. In all cases we think we will obtain a very nice contrast between petals/sepals and lip.

L. purpurata

Z-1452 *L. purpurata (suave 'Sissi' x russeliana 'Maria Cristina')*

Pot Size (Inches): 3 1/2" (NBS)

Price (USD): 25,00

Two very well known plants and also difficult to find in present collections. Both have light tones of pink and very nice flower shapes for this species.

Z-1482 *L. purpurata werkhauerei striata x SELF*

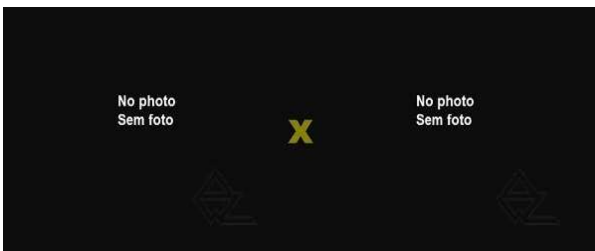

Pot Size (Inches): 3"

Price (USD): 35,00

Few plants available. This *L. purpurata* is a recently developed variety by man and never found in nature. The caerulea form has also distinct veins on the petals making it very attractive.

Z-2107 *L. purpurata werkhauerei striata ('St. Teresa' x 'do Mazinho')*

Pot Size (Inches): 2 1/2"

Price (USD): 25,00

We hope to achieve a high percentage of striata-caerulea flowers.

L. rupicola

Z-1786 *L. alvaroana*

Pot Size (Inches): 2 1/2"

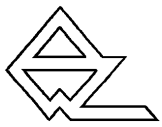

Price (USD): 33,00

Z-2226 *L. colnagoi*

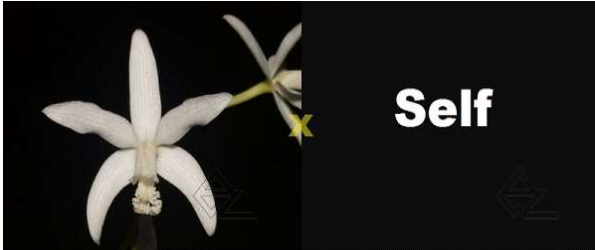

Pot Size (Inches): 2 1/2"

Price (USD): 20,00

L. rupícola

Z-1544 *L. crispilabia alba* x **SELF**

Pot Size (Inches): 2 1/2"

Price (USD): 28,00

Rare alba form of this rupicolous Laelia. NOTE: originally Laelia, then Hoffmannseggella, Sophronitis and now called Cattleya. We still keep them as Laelia.

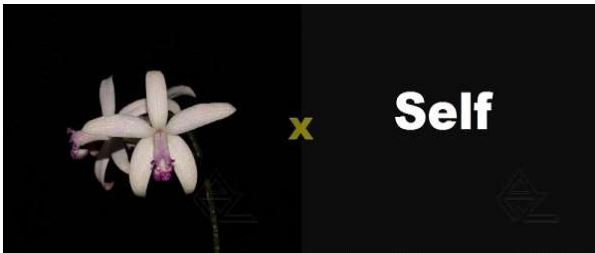

Z-2185 *L. crispilabia caerulea 'Fabio'* x **SELF**

Pot Size (Inches): 2 1/2"

Price (USD): 30,00

Z-1792 *L. crispilabia semi alba 'KM'* X **self**

Pot Size (Inches): NBS - BS

Price (USD): 20,00

Rare variety of this rupicolous Laelia. Plants that bloomed did not confirm this variety and are blooming purple (type). NOTE: originally Laelia, then Hoffmannseggella, Sophronitis and now called Cattleya. We still keep them as Laelia.

Z-1855 *L. gloedeniana*

Pot Size (Inches): 2 1/2" (NBS)

Price (USD): 20,00

Endemic to a small area in Espirito Santo State, near the coast. This is the rupicolous Laelia that occurs at the lowest altitudes, around 300 meters (1000 feet). Plants can reach 40 centimeters in height (approx. 16 inches) and produce long, branched inflorescences with yellow flowers.

Z-2155 *L. lucasiana*

Pot Size (Inches): 2 1/2" (NBS)

Price (USD): 25,00

L. rupicola

Z-2401 *L. marxiana*

Pot Size (Inches): 2 1/2"

Price (USD): 30,00

L. sincorana

Z-2830 *L. sincorana (almost semi alba) x SELF*

Pot Size (Inches): 2 1/2"

Price (USD): 40,00

The flowers have a very pale pink tone. The lip is purple. It's an unusual and rare color form.

Z-3013 *L. sincorana (concolor 'BO' x alba)*

Pot Size (Inches): 2"

Price (USD): 20,00

Z-3006 *L. sincorana (concolor escura 'Diamantina' x delicata 'Pluma')*

Pot Size (Inches): 2 1/2"

Price (USD): 30,00

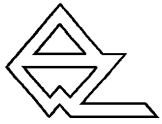

Z-3003 *L. sincorana (delicata 'Orvalho' x concolor escura 'Diamantina')*

Pot Size (Inches): 2 1/2"

Price (USD): 30,00

L. tenebrosa

L. tenebrosa

Z-1849 *L. tenebrosa* ('AWZ' x 'Aline')

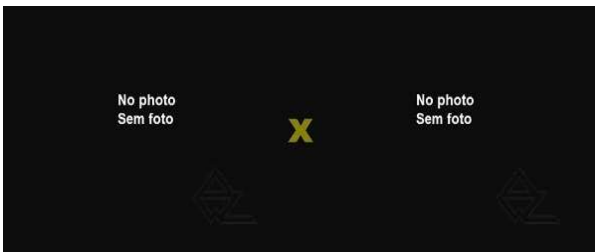

Pot Size (Inches): 2 1/2"

Price (USD): 15,00

We crossed two very nice plants of this species. Both have wider petals and average color for this species (rown petals/sepals and purple lip).

CAL-4 *L. tenebrosa* ('Ebani' x dark)

Pot Size (Inches): NBS

Price (USD): 18,00

Crossing between two selected *L. tenebrosa* - Light flowers x Darker flowers.

Z-851 *L. tenebrosa* ('Fumacina Fujita' x extra-select)

Pot Size (Inches): 3" (NBS)

Price (USD): 25,00

We used two very nice *L. tenebrosa*. The first one is a famous plant with lighter colors and the second is a very nice colored plant.

Z-2108 *L. tenebrosa* 'Surpresa' x SELF

Pot Size (Inches): 2 1/2"

Price (USD): 15,00

High quality plant selected from one of our previous crosses.

Z-1848 *L. tenebrosa* ('TD' x 'Richard')

Pot Size (Inches): 2 1/2"

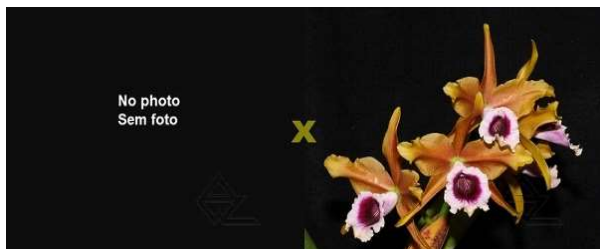

Price (USD): 15,00

Similar to Z-993.

L. tenebrosa

Z-993 *L. tenebrosa (vinicolor x 'Richard')*

Pot Size (Inches): 3" (NBS)

Price (USD): 25,00

L. tenebrosa vinicolor is one of the darkest we have and L. tenebrosa 'Richard' a superb plant. We expect very nice shaped and dark colored plants.

Z-687 *L. tenebrosa (vinicolor 'Eduardo' x 'Fumacina Fujita')*

Pot Size (Inches): NBS - BS

Price (USD): 25,00

Few plants available. L. tenebrosa vinicolor 'Eduardo' is very dark and also good shaped - a truly special plant. This cross with L. tenebrosa 'Fumacina Fujita' which is a well known plant with excellent shape but lighter colors is intended to produce nice shapes and color variations.

Miltonia species

Z-2709 *Milt. candida (sem pintas x escura 'OR')*

Pot Size (Inches): 2 1/2"

Price (USD): 20,00

Z-2710 *Milt. candida (clara x 'Boa')*

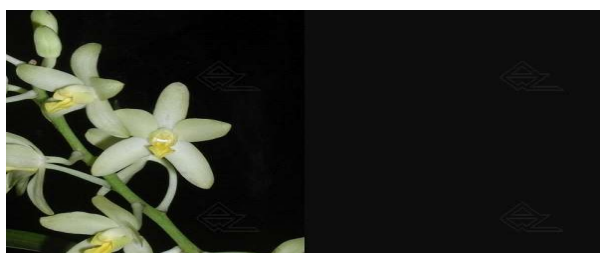

Pot Size (Inches): 2 1/2"

Price (USD): 15,00

Outros gêneros

Z-1304 *Ansellia africana albina x SELF*

Pot Size (Inches): 3"

Price (USD): 30,00

Rare. This is a cream colored, spotless variety of this species from South Africa. Very beautiful and also a slow grower. These plants need drier conditions during rest period plus bright light and temperature drop at night.

Outros gêneros

Z-1473 *Bifrenaria tyrianthina* (dark 'AWZ' x *flamea* 'SC')

Pot Size (Inches): 3" (NBS)

Price (USD): 20,00

Slow growers. We used two very dark forms and one of them is also *flamea*.

Z-1474 *Bifrenaria tyrianthina semi alba dark* ('2' x '1')

Pot Size (Inches): 3"

Price (USD): 20,00

Slow growers. White petals and sepals with purple lip. Flowers are waxy. Need bright light and cooler nights to bloom.

Z-1961 *Bifrenaria verbooneni*

Pot Size (Inches): 2 1/2"

Price (USD): 15,00

This species was recently described in 2000. It's originated from the Diamantina region, in Minas Gerais State, at altitudes around 3280 feet. The flower stem is the longest among all *Bifrenaria* and can reach 11 3/4 inches in height.

Z-1532 *Brassia lawrenceana*

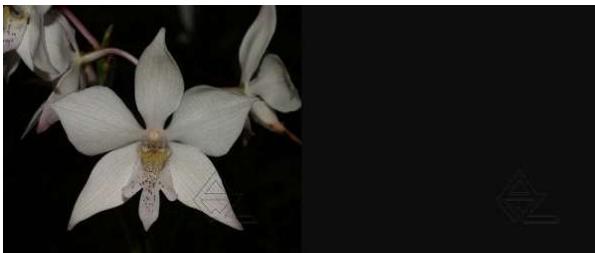

Pot Size (Inches): NBS-BS

Price (USD): 20,00

Another species from the Amazon region. Considered by some people to be synonymous with *Brassia cochleata*. Plants are easy to grow. Like high humidity and warm weather.

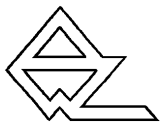

AZ-45 *Caularthron bicornutum*

Pot Size (Inches): NBS

Price (USD): 15,00

Species from the Amazon region. The plant looks like a *Dendrobium* and the base of the pseudobulbs are hollow and always with a crack, which in nature provides shelter for insects. Easy to grow.

Outros gêneros

Z-2832 *Leptotes bicolor alba (B) x (D)*

Pot Size (Inches): 2 1/2" (NBS)

Price (USD): 20,00

Plants are small sized but two already bloomed white. This is a very decorative species when the plants form clusters.

Z-2404 *Maxillaria equitans*

Pot Size (Inches): 2 1/2"

Price (USD): 15,00

This Amazonian species grow at low altitudes in northern Brazil, with heat and lots of humidity. Flowers are small but the plant is very decorative, resembling a small semi terete Vanda.

AZ-82 *Maxillaria rupestris*

Pot Size (Inches): NBS

Price (USD): 20,00

Z-1573 *Maxillaria picta 'Penca de Ouro' x SELF*

Pot Size (Inches): 2 1/2" - 3"

Price (USD): 16,00

Very nice unknown species of Maxillaria. "Penca de Ouro" means a golden bunch or blossom in reference to the color of the flowers. When well cultivated, plants get large and form a magnificent set of flowers.

Z-1339 *Pleurothallis quadrifida*

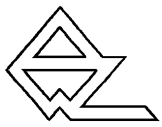

Pot Size (Inches): 2 1/2" (NBS)

Price (USD): 20,00

Also known as Pleurothallis ghiesbreghtiana or Stelis quadrifida. Natural from Costa Rica, easy to grow in intermediate to warm conditions. This is a very decorative plant, with clusters of cream colored flowers. Likes humidity.

Pseudolaelia species

Pseudolaelia species

Z-1324 *Pseudolaelia canaanensis*

Pot Size (Inches): 2 1/2" - 3"

Price (USD): 20,00

The largest of all Pseudolaelia we know. Light yellow colored flowers. These plants thrive naturally as rupicolous but can be mounted as well (inclined).

Z-2026 *Pseudolaelia dutrae alba 'Sta. Teresa' x SELF*

Pot Size (Inches): 2 1/2"

Price (USD): 20,00

This species has one of the largest flowers among the Genus, but unfortunately they are "spider" like, with skinny petals and sepals. It occurs at altitudes around 700 meters (2300 feet) on granite rock formations. Plants grow directly on the rocks (rupicolous) or on the Vellozia bushes. They need warm to intermediate temperatures, bright light and a dryer winter season. They also prefer to be mounted. The alba form is a rare.

Z-2151 *Pseudolaelia oliveirana*

Pot Size (Inches): 2 1/2"

Price (USD): 20,00

Relatively new species from northern Espirito Santo State-Brasil. They occur on the massive granite rock formations near the city of Pancas. This species needs warm to intermediate temperatures, bright light, aeration and a dryer winter season.

Z-2493 *Pseudolaelia vellozicola semi alba x SELF*

Pot Size (Inches): 2 1/2"

Price (USD): 30,00

Soph. brevipedunculata

Z-3157 *Soph. brevipedunculata ('AWZ's Beauty' x select)*

Pot Size (Inches): 2" - 2 1/2"

Price (USD): 20,00
