

TARZANEGROUP

MICRO, MINIATURE AND SMALL ORCHIDS

LEPANTHES MARTINEAE

Origin: Peru

Temperatures: Intermediate to cold growing miniature size orchid species

Light: Bright shade

Watering & fertilizing: Regular watering and fertilizing year-round

General care: Super cute Lepanthes species with very large blooms in compare to its tiny size. One of the easier Lepanthes to grow and bloom. Grows best under cool to intermediate conditions, in bright shade, good humidity and good quality water only. Excellent plants for terrariums, vivariums, frog encounters, glass orbs, greenhouse growing.
