PRE-ORDER LIST OF SELECT PLANTS: April 2013

IMPORTANT ! Address all correspondence & orders to: orchidphile@optimum.net

(Please mention "Plant Pre-Order" & note the particular show in the subject line)

This list replaces & supersedes all previous lists

www.facebook.com/orchidphile

F = In flower

SP/B = In spike/bud

BS = Blooming size (should flower in season – many have already flowered once !)

NBS = Near blooming size (1-2 years to flowering)

PHAL SPECIES:

NOTE: Most of these *Phalaenopsis* species are from Taiwan & were sibbed/selfed using exceptional parents

PHOTO	NAME & DESCRIPTION	SIZE	PRICE
 	<p>Phal. aphrodite var. formasanum 'Varigata' (syn. amabilis v. formosanum)</p> <p><i>(VARIEGATED form of Species)</i></p> <p><i>Exceptionally high quality full round pristine white flowers are produced on this beautifully variegated-leaf clone of this classic species – making the plant equally attractive whether in flower or not ! These plants have just finished their first flowering & the variegation on the leaves varies, so it's best to select which one you prefer in person !</i></p> <p>ONE-OF-A-KIND PLANTS</p> <p>AWARD QUALITY !</p>	<p>BS</p> <p>NEW !</p>	<p>\$ 38</p>

Phal. deliciosa

(Species: selfing of 'Chibai' from Taiwan)

These MICRO MINIS have been flowering very consistently and very early on extremely small plants. Beautiful round leaves & compact spikes – summer-fall bloomer.

ONE-OF-A-KIND SEEDLINGS !

NOT MERICLONES !

BS

\$ 28

NEW !

Phal. deliciosa 'Rheagan'

(SELECT CLONE of Species)

'Rheagan' has been our most floriferous & beautifully marked clone from this species population – and happily, it gives us a keiki or two each year. We've found that under our growing conditions this species, like many Phal. species of its type, prefers to be grown a little shadier than the higher-light waxy-flowered summer-blooming species.

KEIKI FROM OUR MOTHER PLANT !

BS

\$ 28

NEW !

(Limited)

Phal. dowryensis

(RARE Species)

Rarely available, this species is happiest grown under lower Phal. light. Produces waxy flowers on very compact spikes.

ONE-OF-A-KIND SEEDLINGS !

NBS

\$ 48

(Limited)

	<p style="text-align: center;">Phal. javanica (Species)</p> <p><i>Not often available, this strain is the result of a sibbing of two select forms. Very compact pendulous spikes produce small flowers cascading over or between compact round leaves.</i></p> <p style="text-align: center;">MINIATURE SPECIES</p> <p style="text-align: center;">ONE-OF-A-KIND SEEDLINGS !</p>	<p style="text-align: center;">BS</p> <p style="text-align: center;">NEW !</p> <p style="text-align: center;">(Limited)</p>	<p style="text-align: center;">\$ 42</p>
	<p style="text-align: center;">Phal. lindenii (Species)</p> <p><i>The result of sibbing two select clones of this rarely available species, its beautifully mottled leaves provide a backdrop for gracefully cascading spikes of small peppermint-striped flowers, beautifully accented with pink striping & a bright pink flush in the striped lip.</i></p> <p style="text-align: center;">ONE-OF-A-KIND SEEDLINGS !</p>	<p style="text-align: center;">NBS/BS</p> <p style="text-align: center;">NEW !</p> <p style="text-align: center;">Mounted</p> <p style="text-align: center;">(Very Limited)</p>	<p style="text-align: center;">\$ 42</p>
	<p style="text-align: center;">Phal. maculata (VERY RARE Species)</p> <p><i>Similar in its bold marks to Phal. mariae, but producing slightly flatter flowers with crisp & dramatic deep red barring on a pure white flower – all on a very compact flower spike. An easy-growing Phal. species which is always difficult to find. Will re-flower from old spikes in addition to producing new.</i></p> <p style="text-align: center;">ONE-OF-A-KIND SEEDLINGS !</p>	<p style="text-align: center;">BS</p> <p style="text-align: center;">SP</p> <p style="text-align: center;">NEW !</p>	<p style="text-align: center;">\$ 45</p> <p style="text-align: center;">\$ 55</p>

	<p style="text-align: center;">Phal. mariae</p> <p style="text-align: center;"><i>(Rarely Available Species)</i></p> <p><i>This species has all but disappeared in cultivation. Unfortunately, many plants found their way into this country mislabeled as Phal. mariae when they were actually Phal. bastianii. Phal. mariae is easily recognized by its perpendicular flower spikes and bold blotching on its slightly cupped creamy-white flowers. We've already flowered a few from this population last July & it is the TRUE Phal. mariae. Will re-flower from old spikes in addition to producing new.</i></p> <p style="text-align: center;">FRAGRANT ! ONE-OF-A-KIND SEEDLINGS !</p>	<p>NBS/BS</p> <p>SP</p> <p>NEW !</p>	<p>\$ 38</p> <p>\$ 48</p>
	<p style="text-align: center;">Phal. modesta</p> <p style="text-align: center;"><i>(Species)</i></p> <p><i>Another miniature Phal. species producing short spikes of petite white flowers basally, marked with varying degrees of pink patterning.</i></p> <p style="text-align: center;">ONE-OF-A-KIND SEEDLINGS !</p>	<p>BS</p>	<p>\$ 42</p>
	<p style="text-align: center;">Phal. schilleriana 'Pink Butterfly' AM/CCM/AOS</p> <p style="text-align: center;"><i>(Species)</i></p> <p><i>A beautiful spring-flowering species with beautifully mottled leaves – this particular clone is an amazingly strong grower for the species. Adding to its attractiveness are the beautifully mottled leaves of this particular clone ! A vigorous grower, unlike many others of this species, with firm leaves & heavier substance flowers. Although we have not had it tested, we suspect that this re-cloning of 'Pink Butterfly' produced a tetraploid population with its increased vigor and larger flowers.</i></p>	<p>BS</p> <p>Limited</p>	<p>\$ 38</p>

MULTIFLORAL MINIATURES & COMPACT-GROWING BRIGHTLY COLORED NOVELTIES:

Again, most of these clones were created as a result of the excellent Taiwanese breeding programs. Selections below were hand-picked from selected nurseries in Taiwan over the last seven years.

Of Special Note: We will also be bringing, to each show, a selection of first-bloom one-of-a-kind seedlings grown from flasks of brand new directions in hybrid breeding which we've obtained and grown to flowering size – they include hybrids from Brother Orchids, Tying Shin Orchids and several other cutting-edge Taiwanese hybridizers.

PHOTO	NAME & DESCRIPTION	SIZE	PRICE
	<p style="text-align: center;">Phal. Baby's Breath 'Dove' <i>(Martha's Gem x amabilis)</i></p> <p>One of the most amazing pure white multi-floral minis we've ever had, right down to its pristine pure white lip ! Our mother plant, in just a 3.5" pot, has produced a 5-branched flower spike – and the flowers have been open for 4 months already, still holding its oldest flowers while it continues to form buds ! Very compact leaf span & spike height – this will set the standard for future mini white breeding.</p> <p style="text-align: center;">PRISTINE WHITE MULTI-FLORAL MINI</p>	<p style="text-align: center;">SP/B</p> <p style="text-align: center;">First Bloomers !</p> <p style="text-align: center;">NEW !</p>	<p style="text-align: center;">\$ 33</p>
	<p style="text-align: center;">Phal. Be Glad 'Peloric' <i>(Swiss Miss x Cassandra)</i></p> <p>An adorable PELORIC form of this always popular hybrid ! We first saw this plant a few years ago in Taiwan & have been waiting for someone to clone it. Now that they are all in flower, we are sure that they cloned just like the parent since all the buds were triangular in form. A slow grower & slow to open its flowers – but well worth the wait ! (Note: These have already flowered for the first time with two branching spikes on each small plant...perfect time to repot them for an even better flowering next spring!)</p> <p style="text-align: center;">PELORIC MULTI-FLORAL MINI</p>	<p style="text-align: center;">BS</p> <p style="text-align: center;">NEW !</p>	<p style="text-align: center;">\$ 45</p>

	<p style="text-align: center;">Dtps. Chang Jhih Clown MERICLONE <i>(Phal. Rainbow Chip x Tarina)</i></p> <p><i>On their very first flowering these multi-floral minis produced 3-4 branching spikes ! Each flower's petals are accented with a soft lavender splash from its Dor. pulcherrima var. champornensis breeding background. Very full flat flowers on compact branching spikes over equally compact leaf spans. A truly unique charmer – late spring to summer blooming !</i></p> <p style="text-align: center;">MULTI-FLORAL MINI</p>	<p style="text-align: center;">BS</p> <p style="text-align: center;">NEW !</p>	<p style="text-align: center;">\$ 28</p>
	<p style="text-align: center;">Dtps. Chiada Hebe 'Chocolate Drop' <i>(I-Hsin Sesame x Phal. I-Hsin Canary)</i></p> <p><i>Aptly named 'Chocolate Drop' due to its deep burgundy-black overlay on a soft yellow background, leaving just a narrow soft yellow picotee. This waxy flowered mini will catch your eye from anywhere due to the deep richness of its color.</i></p> <p style="text-align: center;">MULTI-FLORAL MINI FROM I-HSIN NURSERY, TAIWAN</p>	<p style="text-align: center;">BS</p> <p style="text-align: center;">SP</p> <p style="text-align: center;">Very Limited</p>	<p style="text-align: center;">\$ 42</p> <p style="text-align: center;">\$ 48</p>
	<p style="text-align: center;">Phal. Chada Stacy 'Chocolate Drop' <i>(Caribbean Sunset x Sunrise Red Peoker)</i></p> <p><i>An adorable, almost-black, multi-floral miniature combining an art shade mini with a harlequin mini – this resulted in a fusing of the harlequin spots, leaving just a narrow picotee around all the segments. A great vini multiflora with a compact leaf span & readily branching compact spikes. A great new direction in breeding for minis with rich deep color !</i></p> <p style="text-align: center;">FROM THE AMAZING BREEDING PROGRAM AT CHIADA UNIVERSITY IN TAIWAN – KNOWN FOR THEIR CUTTING-EDGE HYBRIDS !</p>	<p style="text-align: center;">F</p> <p style="text-align: center;">NEW !</p> <p style="text-align: center;">Limited Stem Props</p>	<p style="text-align: center;">\$ 65</p>

	<p style="text-align: center;">Dtps. Chian Xen Piano 'CX 339' FCC/AOS</p> <p style="text-align: center;"><i>(Jiuhbao Victoria x Chian Xen Mammon)</i></p> <p><i>A huge WOW went up from our Phal. judging team when we awarded this plant the highest AOS award possible in Taiwan a couple of years ago ! Perfectly formed and dramatically crisply marked harlequin-influenced flowers cascaded gracefully from two inflorescences – garnering a 93 point FCC/AOS – well deserved ! Self-cascading strong spikes with no need for additional support.</i></p> <p style="text-align: center;">ALSO WINNER OF AOS HERB HAGER AWARD FOR MOST OUTSTANDING PHAL OF THE YEAR !</p>	<p>SP/B/F</p> <p>NEW !</p> <p>Limited</p>	<p>\$ 62</p>
	<p style="text-align: center;">Phal. Corona</p> <p style="text-align: center;"><i>(cornu-cervi 'Red' x amboinensis)</i></p> <p><i>As a hybrid seedling population, there has been very little variation in the waxy flowers of this new hybrid. Creamy yellow background is marked with burgundy-brown barring over all the segments – previously flowered spikes will rebloom in addition to the formation of new spikes. Lightly FRAGRANT & a welcome summer-fall bloomer !</i></p> <p style="text-align: center;">FROM TAIWAN ONE-OF-A-KIND SEEDLINGS</p>	<p>BS</p> <p>NEW !</p>	<p>\$ 35</p>
	<p style="text-align: center;">Phal. Diamond Goldamour 'YPM 9021'</p> <p style="text-align: center;"><i>(Haur Jin Diamond x Sunrise Goldamour)</i></p> <p><i>Breeding & flower patterning is very similar to Dtps. Lioulin Goldfinch – however, this clone's flowers are waxier and smaller, borne on more compact spikes. An additional charm to this clone is its very compact, extremely round, heavy-substance leaves. Easily fits into any collection since it's not a space hog !</i></p> <p style="text-align: center;">FROM YU PIN NURSERY, TAIWAN</p>	<p>SP/F</p> <p>NEW !</p> <p>Only 1 available</p>	<p>\$ 30</p>

	<p style="text-align: center;">Dtps. Formosa Cranberry MERICLONE</p> <p style="text-align: center;">(Sogo Yenlin x Happy Mark)</p> <p><i>An outrageously dramatic harlequin-accented MULTI-FLORAL MINI which is quickly becoming THE backbone of a second generation of miniature harlequins. When we saw this at the Taiwan International Orchid Show a couple of years ago, we were knocked over by the compactness of its leaves & its branching spikes – qualities which it's now passing on to the next generation of miniature harlequins.</i></p> <p style="text-align: center;">FROM TAIWAN</p>	<p>B/F</p> <p>BS</p> <p>NEW !</p>	<p>\$ 25</p> <p>\$ 20</p>
	<p style="text-align: center;">Dtps. I-Hsin Pixie Reds 'orchidPhile'</p> <p style="text-align: center;">(Phal. Zuma's Pixie x I-Hsin Strawberry)</p> <p><i>A clonal shift from the mericlone population of this little hybrid, these flowers are producing a peloric result with the petals showing off with flaring and a "fleur de lis" shape. The petals have a much richer color, are much fuller than the original mericlone of this hybrid and are almost perfectly flat. Unique and desirable for all peloric collectors !</i></p> <p><u>NOTE:</u> These have been flowering twice a year for us!</p> <p style="text-align: center;">PELORIC MICRO MINI !</p> <p style="text-align: center;">FROM I-HSIN NURSERY, TAIWAN</p>	<p>SP</p> <p>NEW !</p>	<p>\$ 55</p>

	<p style="text-align: center;">Phal. I-Hsin Spot Eagle 'Montclair' AM/AOS</p> <p style="text-align: center;"><i>(Ta-Lin Spot x Black Eagle)</i></p> <p>Small <i>FRAGRANT</i> waxy red flowers produced on very compact spikes over extremely compact rounded foliage. Can reflower from old spikes in addition to producing new. Produces a wonderfully petite bouquet !</p> <p style="text-align: center;"><i>FRAGRANT MINI !</i></p> <p style="text-align: center;"><i>FROM I-HSIN NURSERY, TAIWAN</i></p>	<p style="text-align: center;">BS</p>	<p style="text-align: center;">\$ 48</p>
	<p style="text-align: center;">Dtps. I-Hsin Waltz 'KHM 1100'</p> <p style="text-align: center;"><i>(I-Hsin Black Jack x Sinica Sunday)</i></p> <p>A stunning flower that continues to draw the eye with its dramatic contrast of deep burgundy harlequin-influenced accents over a rich pink background – perfectly finished with a pristine white lip ! Produces dramatic tall spikes which gracefully cascade in a waterfall presentation – a real show-stopper !</p> <p style="text-align: center;"><i>FROM I-HSIN NURSERY, TAIWAN</i></p>	<p style="text-align: center;">F</p> <p style="text-align: center;"><i>Only 1 available</i></p>	<p style="text-align: center;">\$ 38</p>

Dtps. Joy Green Bee 'Joy'

(Dor. pulcherrima alba x Timothy Christopher)

One of our newest – and most favorite - **MICRO MINIS** producing the charm of branching compact spikes of small white flowers, very similar to the fabulous Timothy Christopher parent. The pod parent, *Dor. pulcherrima*, has given this charming miniature a soft fuchsia-pink outlined lip, favoring the shape of a typical *Doritis* lip. All of these, as first bloom seedlings, produced two abundantly flowering – often branching - spikes, in just a 2.5” pot ! Amazingly floriferous & totally captivating. Vigorous growers which will eventually form multiple basal keikis. These have been flowering twice a year for us, spring and fall.

MICRO MINI

**FROM JOSEPH WU NURSERY,
TAIWAN**

BS

\$ 30

NEW !

X

Phal. Kenanga var. flava

(amboinensis var. flava x javanica var. alba)

Hybrid seedlings, not a mericlone

Small **FRAGRANT** waxy yellow flowers are produced on very compact cascading spikes – as a hybrid population, each plant will show a range between the two parents. Spring-Fall bloomer.

ONE-OF-A-KIND SEEDLINGS

NEW !

	<p style="text-align: center;">Dtps. Kenneth Schubert 'A06255'</p> <p style="text-align: center;"><i>(Dor. pulcherrima x Phal. violacea var. coerulea)</i></p> <p><i>A vast improvement over the coerulea form of Dor. pulcherrima as a result of the influence of the coerulea form of Phal. violacea. The pollen parent has given these flowers a long-lasting waxy substance and brought the spike height down in perfect proportion to the leaves. This particular clone has taken on the great color of Phal. violacea var. coerulea with the floriferousness and deep purple lip of Dor. pulcherrima.</i></p> <p style="text-align: center;">MULTI-FLORAL MINI ! FROM TAIDA NURSERY, TAIWAN</p>	<p style="text-align: center;">BS</p>	<p style="text-align: center;">Sold out</p>
	<p style="text-align: center;">Phal. K S Jadegreen 'Sweet'</p> <p style="text-align: center;"><i>(An Tai Jade x Chang Maw Evergreen)</i></p> <p><i>One of our all-time favorites in this line of breeding, producing compact spikes of waxy yellow novelty-size FRAGRANT flowers, each one enhanced with a stunning white heart and pristine white lip. This little hybrid is just loaded with violacea & amboinensis var. flava in its breeding background – plus a large infusion of Phal. micholitzii, well-known for producing green-flowered progeny, giving it just a hint of green. It carries a multi-spike habit from its parentage, and its compact leaf span and spikes make it ideal for under-lights, windowstill & small space growing !</i></p> <p style="text-align: center;">FRAGRANT !</p> <p style="text-align: center;">FROM KUNG SIR ORCHIDS, TAIWAN</p>	<p style="text-align: center;">F</p> <p style="text-align: center;">2 spikes</p> <p style="text-align: center;">Only 1 available</p> <p style="text-align: center;">NEW !</p>	<p style="text-align: center;">\$ 52</p>

	<p style="text-align: center;">Phal. K S Viogold 'Jade'</p> <p style="text-align: center;"><i>(Sogo Viogold x Chang Maw Evergreen)</i></p> <p><i>The pollen parent, Phal. Chang Maw Evergreen, with tons of Phal. micholitzii in its breeding background, has brought a fabulous light green color to this clone, highlighted by a narrow pink halo around the column – with the back of the flowers showing a strong green as opposed to the yellow backing of Phal. K S Jadegreen flowers (above). Its FRAGRANCE comes from an abundance of Phal. violacea in the background of both parents. Novelty breeding at its very best !</i></p> <p style="text-align: center;">FRAGRANT !</p> <p style="text-align: center;">FROM KUNG SIR ORCHIDS, TAIWAN</p>	<p>SP/B</p> <p>NEW !</p>	<p>Sold out</p>
	<p style="text-align: center;">Dtps. K V Charmer 'KV 501'</p> <p style="text-align: center;"><i>(Phal. Salu Peoker x Taida Pearl)</i></p> <p><i>With the harlequin influence coming from both parents & the yellow background color from Phal. Salu Peoker, we have the perfect combination of a large yellow flower accented with harlequin spotting & stippling, consistent from one flower to the next. When in full flower, it is undeniably eye-catching & dramatic !</i></p>	<p>F</p> <p>NEW !</p> <p>1-2 spikes</p>	<p>\$ 38-45</p>

	<p style="text-align: center;">Dtps. Lioulin Sparrow 'Taida Little Panda'</p> <p style="text-align: center;"><i>(Phal. Tai-I Yellow Bird x Sogo Rosa)</i></p> <p><i>A multi-floral miniature version of the larger flowered waxy yellow harlequins – this little hybrid's dark harlequin spotting is created by one layer of black-burgundy over another, all against a soft yellow background, its harlequin blotch almost totally covering each flower. Very heavy waxy substance, compact spikes and leaves, and a vigorous brancher ! These plants have already flowered this spring as first bloomers with 2 vigorously branching spikes !</i></p> <p style="text-align: center;">MULTI-FLORAL MINI !</p>	<p style="text-align: center;">B/F</p> <p style="text-align: center;">NEW !</p> <p style="text-align: center;">Only 1 available</p>	<p style="text-align: center;">\$ 38</p>
	<p style="text-align: center;">Dtps. Lioulin Sweet 'Sweetheart'</p> <p style="text-align: center;"><i>(Penang Girl x equestris)</i></p> <p><i>Charming FRAGRANT waxy miniature flowers are produced on compact spikes cascading over its leaves ! These plants can continue to form buds on currently flowering spikes, in addition to creating new, due to the Penang Girl influence. When fully mature, we expect branching from the Phal. equestris parent. As with many richly colored Phals, its best color is produced when grown cooler & brighter, making its winter flowering always outstanding.</i></p> <p style="text-align: center;">FRAGRANT MULTI-FLORAL MINI !</p>	<p style="text-align: center;">F</p> <p style="text-align: center;">BS</p> <p style="text-align: center;">NEW !</p> <p style="text-align: center;">Only 1 available</p>	<p style="text-align: center;">\$ 38</p> <p style="text-align: center;">\$ 33</p>
	<p style="text-align: center;">Phal. Little Emperor 'Lee' AM/AOS</p> <p style="text-align: center;"><i>(Sogo-Lit Angel x Golden Amboin)</i></p> <p><i>This particular clone of Little Emperor seems to be everyone's favorite for its old gold and peach tones. Multi-floral mini branching habit on compact spikes, with heavy substance flowers for a longer-lasting display.</i></p> <p style="text-align: center;">MULTI-FLORAL MINI !</p>	<p style="text-align: center;">F</p> <p style="text-align: center;">NEW !</p> <p style="text-align: center;">2 branching spikes Limited</p>	<p style="text-align: center;">\$ 42</p>

	<p>Phal. Liu's Twilight Rainbow 'F1259'</p> <p><i>(Rainbow Chip x Timothy Christopher)</i></p> <p><i>A not-to-be-believed multi-floral mini that's already producing two vigorously branching spikes, thus creating a virtual cloud of pink-blushed petite white flowers ! Bred using the famous Phal. Timothy Christopher, one of the very best parents for multi-floral miniature breeding, its pod parent, Rainbow Chip, added the charming touch of the rich pink Phal. equestris lip and its central pink blush. This little hybrid is a perfect example of what a multi-floral miniature should be !</i></p> <p><i>MULTI-FLORAL MINI !</i></p> <p><i>FROM SOGO NURSERIES, TAIWAN</i></p>	<p>F</p> <p><i>2 multi-branching spikes</i></p>	<p>\$ 42</p>
	<p>Phal. Lyndon Equator Jewel</p> <p><i>(Buena Jewel x equestris)</i></p> <p><i>One of the cutest multi-floral minis we've seen with the heavy flower substance of Buena Jewel & the flowering habit and size of Phal. equestris ! Non-fading yellow flowers are lightly blushed centrally & each flower is perfectly finished with a vivid pink lip. Lightly FRAGRANT. As a hybrid population, no two will flower exactly the same.</i></p> <p><i>MINI !</i></p> <p><i>ONE-OF-A-KIND SEEDLINGS</i></p>	<p>BS</p>	<p>\$ 33</p>

	<p style="text-align: center;">Phal. March</p> <p style="text-align: center;"><i>(mannii var. flavum x chibae)</i></p> <p><i>Pictured is one of the first of these to flower, a perfect mix of its two species parents, producing multitudes of small golden yellow flowers on compact branching spikes. The marks from Phal. chibae will vary from one seedling to the next – all the more reason to grow more than one !</i></p> <p style="text-align: center;">MICRO MINI !</p> <p style="text-align: center;">ONE-OF-A-KIND SEEDLINGS</p>	<p style="text-align: center;">BS</p>	<p style="text-align: center;">\$ 22</p>
	<p style="text-align: center;">Phal. Mini Mark 'Maria Teresa'</p> <p style="text-align: center;"><i>(Micro Nova x philippinense)</i></p> <p><i>A clone hand-selected by Carlos Fighetti a few years ago for its bright well-defined marks ! Very small leaf spans over which compact branching spikes produce multitudes of little white & orange flowers. One of our most popular & often asked-for of all minis ! Best grown in slightly shadier & cooler conditions due to its Micro Nova parentage. <u>PLEASE NOTE:</u> This group is the very last of this clone that will be available.</i></p> <p style="text-align: center;">MICRO MINI !</p>	<p style="text-align: center;">BS</p> <p style="text-align: center;"><i>Very limited</i></p>	<p style="text-align: center;">\$ 42</p>

&

Dtps. (Yu Pin Dream Girl
x Phal. World Class 'Big Foot')

***One of a kind hybrid seedlings –
NOT a mericlone !***

Having just returned from my annual trip to Taiwan, I was pleased to find many of these "broad lip" hybrids at the show, some of which were entered for AOS judging & several of which we awarded, including a couple of multi-floral miniatures with its Phal. World Class parent giving them the same 'broad lip'.

These hybrids and some first-bloom seedlings of multifloral miniatures from Tying Shin Orchids, and the newest - a knockout harlequin of Dtps. Yu Pin Dream Girl x Phal. World Class - will be available in limited quantities, as they flower, at various events.

So far only about 15% of these broad lip hybrids have been flowering with the peloric "broad lip" – therefore, our plants have been hand-selected (once they have flowered) for this lip – each one is different as to its lip formation and flower color, a very few of which are flowering almost pure white – no two are alike !

Not available for Pre-Order due to variation – come early for the best selection !

NOTE: The nursery we obtained these hybrids from is no longer releasing them due to their amazing popularity. Mericlones of several will be available in 4-5 years. In the meantime, we will be releasing the rest of our stock on these.

**Pot. Young-Min Orange
'Golden Satisfaction' AM/AOS**

(Viola Nuggett x Lc. Trick or Treat)

*This spectacular clone of Pot. Young-Min Orange knocked all the AOS judges out with its amazingly floriferous display at the Taiwan International Orchid Show in 2010. It was exhibited with over 150 flowers and buds borne on 20 inflorescences, a display of vivid fiery orange. These vigorous plants can flower twice a year with long-lasting lightly **FRAGRANT** flowers. Grows & flowers happily under Phalaenopsis conditions !*

MINI-COMPACT GROWER !

\$ 42-48

NEW !

**Rlc. Mem. Victoria Kam
'Fascination' AM/AOS**

(Sylvia Fry x C. loddigesii)

Huge bold pink flowers with a stunningly ruffled lip, accented with deep golden yellow. An easy and vigorous grower under high Phal. light conditions carrying the charm of C. loddigesii and the fuller form and size of Sylvia Fry.

NEW !

		<p>Rothara (Epc. Rene Marques x Free Spirit 'Lea' AM/AOS) 'Canary'</p>	<p>BS NEW !</p>	<p>\$ 38</p>
<p><i>This new hybrid, recently awarded at the Taiwan International Orchid Show, produces flowers like Epc. Rene Marques on steroids ! Larger, more brilliantly colored and longer-lasting than its pod parent, Rene Marques – flowers are truly green with a broad vivid golden lip and a substance like cardboard. These plants have just flowered for the first time and when fully mature, expect abundant sprays from this bodacious and showy hybrid !</i></p>		<p>Tuberolabium woodii</p>	<p>SP/B/F</p>	<p>\$ 28-33</p>
		<p><i>(Species)</i> <i>We love MINIATURE Vandaceous because they grow & flower so happily along with our Phals ! This mini can produce an abundance of small fragrant flowers, often dwarfing the plant itself. Small thick leaves grow upright rather than horizontal, making this an easy little species to tuck into any collection !</i></p>	<p>1-2 spikes NEW !</p>	
<p>FRAGRANT MINI !</p>		<p>Zygo. Advance Australia 'HOF' AM/AOS</p>	<p>BS</p>	<p>\$ 28</p>
		<p><i>(Titanic x Helen-Ku)</i> <i>We received an AM/AOS on this clone a couple of years ago & still feel it's one of the best Zygo's around – and a very easy and extremely compact grower ! The waxy green sepals & petals are almost totally covered with chocolate brown blotches, and its broad lip is overlaid to the narrow white picotee with vivid deep purple-blue.</i></p>		
<p>FRAGRANT !</p>				

COLLECTORS' SELECT

Listed below are either select species, keikis from our hand-picked plants from Taiwan or unique new hybrids that are one-of-a-kind plants.

SELECT SPECIES:

PHOTO	NAME & NOTES	SIZE	PRICE
	<p style="text-align: center;">Phal. bastianii 'Munchkin' CCM/AOS</p> <p style="text-align: center;"><i>(Select Clone of Species)</i></p> <p><i>This particular clone of Phal. bastianii, quite unlike many of the same species, can vigorously produce multitudes of basal and spike-initiated keikis which, when all are mature and in full flower, produce quite a show.</i></p> <p style="text-align: center;"><i>Keiki from our awarded mother plant</i></p> <p style="text-align: center;"><i>Winner: Best Plant in Show</i> <i>(SEPOS/LONGWOOD 2011)</i></p>	<p style="text-align: center;">BS</p>	<p style="text-align: center;">Sold Out</p>

	<p>Phal. cornu-cervi var. chattaladae (Sib cross of Species)</p> <p><i>Fully mature blooming-size plants of this awesome solid red form of this species ! We've had these plants grown on in Taiwan and are now releasing them. Previously flowered spikes will continue to grow & form buds with additional new spikes being created. They tend to flower sporadically during the year with no definite flowering season. A NOTE OF CAUTION: Many red clones of Phal. cornu-cervi are being sold as the var. chattaladae – however, they are actually the rubescens form, recognizable by faint barring (rather than solid red) on the lateral sepals over its yellow base color. The rubescens form has been bred from a clone called 'Red' and is not as dark or solid in color. These are the true chattaladae from a seed pod from David Grove, the original owner of the only plant of this variety of cornu-cervi. Quite a sight when in full flower on multiple spikes !</i></p> <p>FRAGRANT !</p> <p>ONE-OF-A-KIND ROBUST SEEDLINGS !</p>	BS	\$ 75
	<p>Phal. equestris var. alba 'Tarabelle' (True alba form of Species)</p> <p><i>Our selected clone of the alba form of Phal. equestris. The true albas show just a whisper of soft yellow in the callus with no yellow at all on the lip.</i></p> <p>SELECT CLONE !</p> <p>KEIKIS FROM MOTHER PLANT !</p>	BS	\$ 55

	(Only 2 available)		

	<p style="text-align: center;">Phal. lueddemanniana var. alba 'Barbara'</p> <p style="text-align: center;"><i>(VERY RARE alba form of this Species)</i></p> <p><i>An extremely rare color form of Phal. lueddemanniana – this particular clone came from Bob Fuch's mother, Barbara, over 35 years ago – and is pure white with no hint of color !</i></p> <p style="text-align: center;">KEIKI FROM MOTHER PLANT</p>	<p style="text-align: center;">NBS</p> <p style="text-align: center;"><i>(Only 1 available)</i></p>	<p style="text-align: center;">\$ 250</p>
	<p style="text-align: center;">Phal. micholitzii 'orchidPhile'</p> <p style="text-align: center;"><i>(Species)</i></p> <p><i>A true collector's item which is rarely available ! Keiki from our SELECT CLONE of this species with excellent form & flatness. Flowers appear on short spikes clustered around the base of the plant - a fully mature plant is capable of producing flower spikes around the entire plant.</i></p> <p style="text-align: center;">KEIKI FROM MOTHER PLANT</p>	<p style="text-align: center;">BS</p> <p style="text-align: center;">NEW !</p> <p style="text-align: center;">Only 1 available</p>	<p style="text-align: center;">\$ 125</p>
	<p style="text-align: center;">Phal. pulchra alba</p> <p style="text-align: center;"><i>(Syn. Phal. lueddemanniana var. pulchra alba)</i></p> <p style="text-align: center;"><i>(VERY RARE COLOR FORM of Species)</i></p> <p><i>This population of the very rare alba form of this species came from a selfing in Taiwan – we were fortunate enough to be able to obtain only a few since it did not produce much seed. A breeder & collectors' must-have !</i></p> <p style="text-align: center;">FRAGRANT !</p>	<p style="text-align: center;">NBS</p> <p style="text-align: center;">NEW !</p> <p style="text-align: center;">Very Limited</p>	<p style="text-align: center;">\$ 150</p>
	<p style="text-align: center;">Phal. violacea alba</p> <p style="text-align: center;"><i>(Species)</i></p> <p><i>From a population obtained in Taiwan, these alba forms of Phal. violacea are the result of sibblings & selfings by a hybridizer who specializes in Phal. bellina & Phal. violacea. We're just starting to see some of the first to flower.</i></p> <p style="text-align: center;">FRAGRANT !</p>	<p style="text-align: center;">BS</p> <p style="text-align: center;">Limited</p>	<p style="text-align: center;">\$ 85</p>

SELECT HYBRIDS:

	<p>Phal. (Haur Jin Diamond x Timothy Christopher) 'Fangtastic'</p> <p><i>Multi-floral miniature harlequin breeding at its best ! The overlay of harlequin pigment on the white background of Phal. Timothy Christopher covers almost the entire flower – the depth of the harlequin pigment being created as a result of one layer of harlequin pigmentation over another. Very unique - and unfortunately, since it was a limited Stem Prop, it's no longer available !</i></p> <p>MULTI-FLORAL MINI</p> <p>FROM SOGO NURSERIES, TAIWAN</p>	<p>B/F</p>	<p>Sold Out</p>
	<p>Dtps. Siam Treasure 'Tying Shin'</p> <p><i>(Phal. lowii x Dor. pulcherrima)</i></p> <p><i>This is a select clone of the highly desirable hybrid, Dtps. Siam Treasure, from Kuo-Liang Hung of Tying Shin Orchids, currently being used in his breeding program. Soft lavender-blue flowers, produced on upright stately and branching spikes, are accented with a vivid broad purple-blue lip. Due to its Phal. lowii parentage, for best growth and flowering, we recommend growing it under lower light, much like the light given to Phal. bellina – it also benefits from being a little cooler in the summer. IMPORTANT NOTE: this clone is an amazingly robust grower, quite unlike the clone 'Blue' which has been difficult, at best, to grow or even keep alive !</i></p> <p>FROM TYING SHIN ORCHIDS, TAIWAN</p>	<p>BS</p> <p>Only 2 available</p>	<p>\$ 85</p>

	<p style="text-align: center;">Dtps. Tying Shin Popularity 'orchidPhile'</p> <p style="text-align: center;"><i>(Phal. Tying Shin Surprise x Tying Shin Champion)</i></p> <p><i>This particular plant was hand-selected by us at Tying Shin's Nursery last year for its crisp and dramatic marks. In 2010 this cross, with its seedlings all from the same pod, garnered an AQ/AOS, one FCC/AOS and eight AM/AOS awards at the Taiwan Show in March. Although not yet shown for judging, we think this clone is as good as any of those previously awarded...lucky for us that it wasn't mature enough to be shown in 2010 so it was available (with 4 basal keikis!) for sale – and we grabbed it (and then robbed a bank) !</i></p> <p style="text-align: center;">FROM TYING SHIN NURSERIES, TAIWAN</p>	<p style="text-align: center;">BS</p> <p style="text-align: center;"><i>Only 1 keiki from our mother plant available</i></p>	<p style="text-align: center;">\$ 250</p>
