

the orchidPhile

PRE-ORDER LIST: August 2015

www.facebook.com/orchidphile

IMPORTANT! Address all correspondence & orders to: orchidphile@optimum.net
(Please mention "Plant Pre-Order" & note the particular event or Mail Order in the subject line)

This list replaces & supersedes all previous lists. All orders are filled in the order in which they are received and are subject to prior sale.

Prices are listed in US Dollars

OF SPECIAL NOTE: We will not be bringing everything on this list so a Pre-Order will reserve the plant – in addition, we often bring some first bloom One-of-a-Kind seedlings grown from flasks purchased from select cutting-edge breeding programs in Taiwan. At various times during the year, this will also include plants of *Phal. bellina*, *Phal. violacea* and hybrids with their breeding background. These will be available on a First Come-First Serve basis – all will be One-of-a-Kind plants, not mericlones.

We've also expanded our collection of miniature **Chinese Cymbidiums**, miniature **Vandaceous** and miniature **Dendrobiums** – all of which grow & flower happily with our Phals. These are now listed these in their own sections. Our "Previously Flowered" section is at the end of this list ~ these are fully mature mericlones, many of which are now available at reduced prices.

Most plants are in 2.7" pots as first or second bloomers unless otherwise noted as being fully mature in 4" pots

Stock quantities of 6 or fewer are noted under size in parens ()

ORDERING INFORMATION FOR OUR MAIL ORDER CLIENTS:

In the winter or during inclement weather, shipments may be delayed pending more moderate weather conditions. Shipping is either via FedEx Ground or Air depending on final destination. We reserve the right to withdraw any offering from sale and to limit quantities.

We guarantee all plants to be true to identity to the best of our knowledge. We make no warranty as to the productiveness of any plants sold. Our responsibility shall only be limited to the purchase price.

Although we do our utmost to pack carefully, we are not responsible for damage to buds or flowers. Safe arrival of a healthy orchid plant is guaranteed.

Shipping And Packing Charges:

Additional charges, based on the order subtotal, are 5% for packing plus the actual FedEx shipping cost.

SIZE DEFINITIONS:

- F = Currently in flower (single spike unless otherwise noted)
- B = In bud (single spike unless otherwise noted)
- SP = In spike, short to medium spike stage (no buds showing yet)
- BS = Blooming size (should flower in season)
- NBS = Near blooming size (approximately 1-2 years to flowering)
- S = about 2-3 years to flowering

PHAL SPECIES:

Most of these Phalaenopsis species are from Taiwan & were sibbed or selfed using select parents

PHOTO	NAME & DESCRIPTION	SIZE	PRICE
	<p>Phal. bellina 'Red' <i>(RED blush form of Species)</i></p> <p><i>An excellent really round form of Phal. bellina, this particular clone bearing a "red" blush rather than the usual pink-purple blush !</i></p> <p>FRAGRANT !</p>	BS (1)	\$ 48

PHOTO	NAME & DESCRIPTION	SIZE	PRICE
	<p style="text-align: center;">Phal. cornu-cervi fma. chattaladae</p> <p style="text-align: center;">(the true chattaladae !)</p> <p><i>(Rare color form of Species – Sib cross from Dr. David Grove made from the original species)</i></p> <p>This is the genuine chattaladae form of Phal. cornu-cervi from David Grove, owner of the only known plant of this variety. <u>NOTE:</u> There are other red forms of Phal. cornu-cervi being offered – but they are actually fma. rubescens or a cross between fma. rubescens and possibly fma. chattaladae....all showing a hint of yellow in their lateral sepals and most with a yellow back to the flowers. Fma. chattaladae has a totally solid red back to its flowers with no hint of yellow anywhere except the very tips of the lateral sepals & it retains its solid red color, even on the fading flowers, whereas fma. rubescens will begin to show yellow as the flowers fade.</p>	<p style="text-align: center;">F</p> <p style="text-align: center;">(2)</p>	<p style="text-align: center;">\$ 95</p>
	<p style="text-align: center;">Phal. cornu-cervi fma. flava</p> <p style="text-align: center;"><i>(Yellow form of Species)</i></p> <p>Not only are these the more rare color form of Phal. cornu-cervi, but they also are exhibiting amazing vigor ! Large robust plants are now spiking for summer-fall flowering. Its older spikes will continue to form buds & branch while still creating additional new spikes. And this clone readily makes basal & on-spike keikis for the absolute best in a bright yellow FRAGRANT display !</p> <p style="text-align: center;">EASY-GROWING !</p> <p style="text-align: center;">FRAGRANT !</p>	<p style="text-align: center;">SP</p> <p style="text-align: center;">(2)</p> <p style="text-align: center;">2 spikes</p> <p style="text-align: center;">(3)</p>	<p style="text-align: center;">\$ 48</p> <p style="text-align: center;">\$ 55</p>

PHOTO	NAME & DESCRIPTION	SIZE	PRICE
	<p>Phal. deliciosa subsp. hookeriana</p> <p><i>(RARE Color form of Species)</i></p> <p><i>Charming rare color form of this micro-miniature Phalaenopsis species ! Multitudes of small yellow flowers are produced in abundance on compact branching spikes, often pendulous, over equally compact leaves. The perfect little species, easily tucked into any collection !</i></p> <p>ONE-OF-A-KIND SEEDLINGS !</p> <p>FROM JIA HO NURSERY, TAIWAN</p>	<p>BS</p> <p>(1)</p> <p><i>Mounted</i></p>	<p>\$ 38</p>
	<p>Phal. hieroglyphica fma. alba</p> <p><i>(Species: 'Golden Promise' AM/AOS x self)</i></p> <p><i>The rare alba form of Phal. hieroglyphica which we find much more charming than the common white & burgundy form. For an alba form these have been extremely vigorous growers & a few from this group have flowered already. Always leave the previously flowered spike on the plant since they do tend to add additional buds while making a new spike or two.</i></p> <p>ONE-OF-A-KIND SEEDLINGS !</p>	<p>BS</p> <p>(3)</p>	<p>\$ 48</p>
	<p>Phal. javanica</p> <p><i>(Species)</i></p> <p><i>Not often available, this strain is the result of a sibbing of two select forms. Very compact pendulous spikes produce small flowers cascading over or between compact round leaves. Again, we've found this species does better in our greenhouses when grown a little cooler & shadier.</i></p> <p>MINIATURE SPECIES</p> <p>ONE-OF-A-KIND SEEDLINGS !</p>	<p>BS</p> <p>(3)</p>	<p>\$ 42</p>

PHOTO	NAME & DESCRIPTION	SIZE	PRICE
	<p style="text-align: center;">Phal. javanica 'KF Red'</p> <p style="text-align: center;"><i>(Species)</i></p> <p><i>A stem prop of an extremely dark color form of this species with emboldened RED stippling/striping !</i></p> <p style="text-align: center;">MINIATURE SPECIES</p>	<p style="text-align: center;">BS</p> <p style="text-align: center;">(2)</p>	<p style="text-align: center;">\$ 65</p>
	<p style="text-align: center;">Phal. lindenii</p> <p style="text-align: center;"><i>(Species)</i></p> <p><i>The result of sibbing two select clones of this rarely available species, its beautifully mottled leaves provide a backdrop for gracefully cascading spikes of small white or peppermint-striped flowers, beautifully accented with pink striping & a bright pink flush in the lip. Grow cooler & shadier.</i></p> <p style="text-align: center;">ONE-OF-A-KIND SEEDLINGS !</p>	<p style="text-align: center;">BS</p> <p style="text-align: center;">Mounted</p> <p style="text-align: center;">(1)</p>	<p style="text-align: center;">\$ 42</p>
	<p style="text-align: center;">Phal. maculata</p> <p style="text-align: center;"><i>(VERY RARE Species)</i></p> <p><i>Similar in its bold marks to Phal. mariae, but producing slightly flatter flowers with crisp & dramatic deep red barring on a pure white waxy flower – all on a very compact flower spike. An easy-growing Phal. species which is always difficult to find. Will re-flower from old spikes in addition to producing new.</i></p> <p style="text-align: center;">ONE-OF-A-KIND SEEDLINGS !</p>	<p style="text-align: center;">BS</p> <p style="text-align: center;">(1)</p>	<p style="text-align: center;">\$ 55</p>

PHOTO	NAME & DESCRIPTION	SIZE	PRICE
	<p>Phal. mariae <i>(Rarely Available Species)</i></p> <p><i>This species has all but disappeared in cultivation. Unfortunately, many plants found their way into this country mislabeled as Phal. mariae when they were actually Phal. bastianii. Phal. mariae is easily recognized by its gently cascading flower spikes, a slightly more cupped flower and bold blotching on its creamy-white background. We've already flowered a few from this population last July & it is the TRUE Phal. mariae. Will re-flower from old spikes in addition to producing new.</i></p> <p>NOTE: Often we will leave previously flowered, still green, spikes on these plants since they continue to add more buds to that spike in addition to forming new spikes.</p> <p>FRAGRANT ! ONE-OF-A-KIND SEEDLINGS !</p>	<p>BS (3)</p>	<p>\$ 38</p>
 <p>'Tara' 4N</p>	<p>Phal. (Dor.) pulcherrima alba fma. champornensis 'Tara' – 4N <i>(Tetraploid Peloric form of Species)</i></p> <p><i>This keiki is from a tetraploid (4N) population producing fuller flowers with a much more vividly colored & well-defined peloric splash on its petals ! Unlike the diploid forms of this species, our 4N population is very slow to produce keikis, making only one every 1-2 years. This particular clone was selected for its fuller flower, heavier substance & bold splash patterning on the petals.</i></p> <p><u>Additional Note:</u> the clone 'Tara' has slightly more green to its yellow splash than its siblings which are a rich golden-yellow.</p> <p>KEIKI FROM MOTHER PLANT OF SELECT CLONE !</p>	<p>F (1)</p>	<p>\$ 42</p>

MULTIFLORAL MINIATURES & COMPACT-GROWING BRIGHTLY COLORED NOVELTIES:

Again, most of these clones are the result of the excellent Taiwanese breeding programs.

Many of the plants below were hand-picked from select nurseries over the last several years on our annual trips to Taiwan.

PLEASE NOTE: *With many of the harlequins & the red or orange novelties, differences in light & temperature at various times of the year will cause some variation to occur in the flower color and/or intensity of their markings. Under warmer temperatures & more shaded conditions in the summer, many red hybrids with yellow or orange in their breeding background will flower showing more of those colors. Under cooler temperatures & brighter light in the fall to winter months, the red pigment in the flowers is more strongly expressed resulting in solid red flowers.*

	<p align="center">Phal. Chian Xen Panda 'CX 492' FCC/AOS</p> <p align="center"><i>(Acker's Sweetie x Chian Xen Angel)</i></p> <p><i>Just awarded by our AOS Phalaenopsis Judging team at this year's 2015 Taiwan International Orchid Show, Chian Xen Panda stood head & shoulders above all the harlequins we saw ! Producing 16 stunning and extremely full flat flowers, perfectly spaced on two inflorescences, its over 4" flowers were dramatically marked with extremely crisp blackened-burgundy accents focused centrally over pristine chalk white flowers, all making for a show-stopping presentation ~ more than deserving of the highest flower award that can be granted by the AOS. Great compact leaf span for the breeding & a truly superior harlequin !</i></p> <p align="center">FROM CHIAN XEN NURSERY, TAIWAN</p>	<p align="center">BS</p> <p align="center">4" pot</p> <p align="center">(4)</p> <p align="center">NEW !</p>	<p align="center">\$ 48</p>
	<p align="center">Dtps. Chian Xen Violin 'CX 295' AM/AOS</p> <p align="center"><i>(Chian Xen Pearl x Yu Pin Burgundy)</i></p> <p><i>Also awarded by our Phal. AOS Judging team at the 2013 Taiwan International Orchid Show, this multi-floral miniature wowed the judging team with its fully round bright rose pink flowers, each marked with dark raspberry-red harlequin spots ! Yu Pin Burgundy is a miniature harlequin with Chian Xen Pearl being a famous standard harlequin parent. These plants are vigorous growers, having produced branching spikes in just 2.7" pots – and were still in full flower four months later !</i></p> <p align="center">MULTI-FLORAL MINI !</p> <p align="center">FROM CHIAN XEN NURSERY, TAIWAN</p>	<p align="center">BS</p> <p align="center">(1)</p> <p align="center">NEW !</p>	<p align="center">\$ 42</p>

PHOTO	NAME & DESCRIPTION	SIZE	PRICE
	<p style="text-align: center;">Phal. Ebony Sweet Gem (prov.) 'Little Treasure'</p> <p style="text-align: center;"><i>(Orig: Phal. (Yu Pin Natsume x Fuller's Berry) 'OX 1659'</i></p> <p>Another clone using the great miniature harlequin parent, Fuller's Berry ! Combined with Yu Pin Natsume, it has created cardboard-substance flowers that are almost black & are FRAGRANT...our photo, shot at the show with a flash, doesn't begin to capture how really "almost black" these flowers are (due to the flash reflecting back to the camera). They are really as "black" as the Fredclarkara's or the Millenium Magics thanks to the rich harlequin pollen parent, Fuller's Berry ! Mated with Yu Pin Natsume, another heavily marked harlequin mini, its rich dark color is the result of layer upon layer of harlequin suffusion coming from both parents, producing a thick flower with heavy color pigment and no hint of any other color. These plants have already flowered once, producing 2 branching spikes in just a 2.7" pot and will continue to produce flowers on previously bloomed spikes in addition to creating new...a couple which were cut back just 2 months ago are already spiking again. A cutting-edge "almost black" multi-floral mini !</p> <p><u>NOTE:</u> Often we will leave previously flowered, still green, spikes on these plants since they continue to add more buds to that spike in addition to forming new spikes.</p> <p style="text-align: center;">FRAGRANT !</p> <p style="text-align: center;">MULTI-FLORAL WAXY MINI !</p> <p style="text-align: center;">FROM OX NURSERY, TAIWAN</p>	<p style="text-align: center;">BS</p> <p style="text-align: center;">(1)</p> <p style="text-align: center;">NEW !</p>	<p style="text-align: center;">\$ 95</p>

PHOTO	NAME & DESCRIPTION	SIZE	PRICE
	<p style="text-align: center;">Phal. Fuller's Gold Stripes 'OX1560'</p> <p><i>An especially charming clone of this multi-floral miniature ! Unlike the other commonly available clones of the same hybrid, this particular clone produces extremely round well-balanced flowers on very compact branching spikes – its striping and red lip are also much more vivid and well-defined than its siblings – its presentation beautifully set off by a central white flush. These heavy substance flowers lead us to wonder if they're 4N – and this heavier substance means a long-lasting display. If we could only grow one clone of Fuller's Gold Stripes, this would be it !</i></p> <p style="text-align: center;">MULTI-FLORAL MINI !</p> <p style="text-align: center;">FROM OX NURSERY, TAIWAN</p>	<p style="text-align: center;">B/F <i>(2 spikes)</i></p>	<p style="text-align: center;">\$ 28</p>
	<p style="text-align: center;">Phalaenopsis Lioulin Barbie 'A07033'</p> <p style="text-align: center;"><i>(Sogo Yenlin x Ching Ann Diamond)</i></p> <p><i>From the same seed pod as 'A07401', this clone produces richly glowing & velvety dark pink flowers ! Compact growth with branching spikes. That, added to its tendency to bloom more than once a year when fully mature, makes it a great addition to any collection !</i></p> <p style="text-align: center;">MULTI-FLORAL MINI !</p>	<p style="text-align: center;">SP <i>2 spikes (5)</i></p> <p style="text-align: center;">NEW !</p>	<p style="text-align: center;">\$ 28</p>

PHOTO	NAME & DESCRIPTION	SIZE	PRICE
	<p style="text-align: center;">Dtps. Lioulin Sparrow 'Taida Little Panda'</p> <p style="text-align: center;"><i>(Phal. Tai-I Yellow Bird x Sogo Rosa)</i></p> <p><i>A multi-floral miniature version of the larger flowered waxy yellow harlequins – this little hybrid's dark harlequin spotting is created by one layer of black-burgundy over another, all against a soft yellow background, its harlequin blotch almost totally covering each flower. This particular clone is super compact versus other clones of this hybrid, the spikes reaching no taller than 6-8" from the rim of the pot. Very heavy waxy substance, extremely compact spikes and leaves, and a vigorous brancher ! These plants already flowered this spring as first bloomers with 2 vigorously branching spikes !</i></p> <p style="text-align: center;">MULTI-FLORAL MINI !</p>	<p style="text-align: center;">SP/B 2 <i>branching spikes !</i> (3)</p>	<p style="text-align: center;">\$ 38</p>
 	<p style="text-align: center;">Dtps. Lioulin Sparrow 'Taida Velvet Butterfly'</p> <p style="text-align: center;"><i>(Tai-I Yellow Bird x Sogo Rosa)</i></p> <p><i>An adorable harlequin mini has already produced 2 branching spikes in just 2.7" pots ! This particular clone is super compact versus other clones of this hybrid, the spikes reaching no taller than 6-8" from the rim of the pot. Heavy substance wonderfully round flowers, with the heavy dark burgundy harlequin blotch centrally, leaving a narrow yellow picotee on all its segments. Will continue to produce buds on its previously flowered spikes in addition to creating more new spikes !</i></p> <p style="text-align: center;">MULTI-MINI HARLEQUIN !</p>	<p style="text-align: center;">F <i>Nice compact branching spike</i> (3)</p>	<p style="text-align: center;">\$ 28</p>

PHOTO	NAME & DESCRIPTION	SIZE	PRICE
 	<p>Phal. Little Gem Stripes 'OX1499' <i>(Taisuco Stripe x Taisuco Gem)</i></p> <p><i>Not your everyday white multi-floral miniature, this particular clone of Little Gem Stripes carries a bold red lip that makes the whole presentation really stand out ! Compact branching spikes produce a generous display of mini whites with the punch of a bright red lip. Although the flowers open showing some of the striping from Taisuco Stripe, as they mature the striping totally disappears, leaving a pure white multi-floral mini with a great red lip. This clone is the absolute favorite in Taiwan for further breeding of multi-minis for its full-form flowers, compact spikes & leaves & its blood-red lip!</i></p> <p>MULTI-FLORAL MINI !</p> <p>FROM LIU'S NURSERY, TAIWAN</p>	<p>SP/B 1 spike (2)</p> <p>2 spikes (3)</p>	<p>\$ 22</p> <p>\$ 28</p>
 	<p>Phal. Liu's Berry 'PS3331' <i>(Eduardo Quisumbing x parishii)</i></p> <p><i>Carrying the charmingly broad lips and flower size of the more difficult to grow species, Phal. parishii, this easy-to-grow hybrid has it all ! With a great compact leaf span & equally compact gently cascading spikes, this little gem fits easily into any collection.</i></p> <p>MICRO MINI !</p> <p>FROM LIU'S NURSERY, TAIWAN</p>	<p>F 2 spikes (2)</p> <p>SP/B 2 spikes (3)</p>	<p>\$ 28</p> <p>\$ 35</p>

PHOTO	NAME & DESCRIPTION	SIZE	PRICE
	<p style="text-align: center;">Phal. Liu's Fantasy 'Little Snow White'</p> <p style="text-align: center;"><i>(Be Glad alba x Timothy Christopher)</i></p> <p><i>Adorable miniature flowers, showing a great mix of both famous parents and bearing bright golden-yellow lips – already producing its second spike in 6 months in just a 3" pot - a charmingly petite white MICRO MINI.</i></p> <p style="text-align: center;">MICRO MINI !</p> <p style="text-align: center;">FROM LIU'S NURSERY, TAIWAN</p>	<p style="text-align: center;">F (1)</p>	<p style="text-align: center;">\$ 28</p>
	<p style="text-align: center;">Phal. Liu's Fantasy 'Tom Ann'</p> <p style="text-align: center;"><i>(Be Glad x Timothy Christopher)</i></p> <p><i>Our best clone of this miniature, showing a great mix of both famous parents ! What sets this clone, 'Tom Ann', apart is its pure white lip with just a touch of yellow in the callus, quite different from the traditionally available clones of this little hybrid which bear yellow lips – compact grower with nice round thick leaves ~ we strongly suspect this particular clone is a tetraploid (4N). Easy to fit into any collection, this is an adorably petite & pristine white charmer !</i></p> <p style="text-align: center;">MULTI-FLORAL MINI !</p> <p style="text-align: center;">FROM LIU'S NURSERY, TAIWAN</p>	<p style="text-align: center;">SP 2 spikes</p> <p style="text-align: center;">NEW !</p>	<p style="text-align: center;">\$ 28</p>
	<p style="text-align: center;">Phal. Liu's Rainbow 'M'</p> <p style="text-align: center;"><i>(Be Glad x lindenii)</i></p> <p><i>One of the most charming of Micro Minis, producing small white flowers with a central blush & broad lip on extremely compact spikes over an amazingly compact leaf span. Vigorous and easy grower !</i></p> <p style="text-align: center;">FROM LIU'S NURSERY, TAIWAN</p>	<p style="text-align: center;">B/F Multi- branched spike (5)</p> <p style="text-align: center;">NEW !</p>	<p style="text-align: center;">\$ 33</p>

PHOTO	NAME & DESCRIPTION	SIZE	PRICE
	<p style="text-align: center;">Phal. Liu's Triprince 'KF' AM/AOS</p> <p style="text-align: center;"><i>(Eduardo Quisumbing x lobbii)</i></p> <p>When awarded at the Taiwan International Orchid Show, this little charmer was showing off with 55 flowers & buds on two upright branching spikes ! Its pristine white flowers are dramatically accented with a broad golden-orange lip from the Phal. lobbii pollen parent, drawing your eye immediately. A compact and amazingly easy grower which can flower more than once a year. Mr. Liu made a few Stem Props of this clone & we were allowed to purchase just half a dozen due to their limited quantity. Great for windowsill & under-lights growing !</p> <p style="text-align: center;">FROM LIU'S NURSERY, TAIWAN</p> <p style="text-align: center;">MULTI-FLORAL MINI !</p>	<p style="text-align: center;">BS (1)</p> <p style="text-align: center;">NEW !</p>	<p style="text-align: center;">\$ 45</p>
	<p style="text-align: center;">Phal. Liu's Triprince 'KF#4'</p> <p style="text-align: center;"><i>(Eduardo Quisumbing x lobbii)</i></p> <p>Another select clone of this amazing little hybrid ! A vigorous grower, it already produced two branching spikes as a first bloomer in just a 2.7" pot. This clone differs from 'KF' in that its lip is more yellow in color without the light orange overlay. We just removed the spikes from these two plants – as first bloomers, they were already producing 2 branching spikes – and they are already spiking up again. Very compact leaf span & spike height – ideal for windowsill & under-lights growing as well as space-challenged collections !</p> <p style="text-align: center;">FROM LIU'S NURSERY, TAIWAN</p> <p style="text-align: center;">MULTI-FLORAL MINI !</p>	<p style="text-align: center;">BS (3)</p> <p style="text-align: center;">SP (1)</p> <p style="text-align: center;">NEW !</p>	<p style="text-align: center;">\$ 33</p> <p style="text-align: center;">\$ 38</p>

Pristine white fully round flowers are lightly kissed centrally with deep burgundy harlequin accents around the column and on its lateral sepals. Naturally cascading spikes. A great improvement on miniature harlequin breeding !</i></p> <p>MULTI-FLORAL MINI !</p> <p>FROM YUSHAN NURSERY, TAIWAN</p>	<p>BS (1)</p> <p>F (1)</p>	<p>\$ 28</p> <p>\$ 33</p>

FRAGRANT MINIATURE CHINESE CYMBIDIUMS:

All the species listed below grow & flower easily WITH our Phals under the same light & temperature conditions since they are miniature growing Chinese species, requiring much lower light, less space & will grow under warmer temperatures than their larger cousins ~ they also don't require the extreme chill in order to make their flower spikes. Two of our clones in particular are just 6" in height – perfect for windowsill & under-lights growing !

As you will notice, we are particularly fond of the green & yellow flowering varieties with either delightfully compact or elegantly tall flower spikes. We've found that the traditional burgundy-brown color is just too muddy to stand out and make a statement.

*Several of these varieties also have the added charm of **VARIEGATED FOLIAGE**, meaning they're attractive, even when not in flower ! Variegated foliage comes at a higher price because it's greatly prized in Japanese & Chinese cultures, meaning the stronger the variegation, the more expensive the clone.*

Most of these clones/divisions came in recently, bare-rooted, and are now well-established in their moss pots – they are just now forming their new growths in preparation for flowering once again.

MINIATURE VANDACEOUS:

All these species & hybrids grow & flower easily WITH our Phals under the same light & temperature conditions since they are miniature growers, requiring much lower light than their larger-flowered cousins. Their plant forms are micro-miniature to compact growing, many of them readily forming basal keikis to become beautiful specimen plants. And most of them are FRAGRANT !

	<p style="text-align: center;">Guarisophleya (Slc.) Doris and Byron 'Christmas Rose' HCC/AOS</p> <p style="text-align: center;"><i>(Slc. Love Castle x C. Candy Tuft)</i></p> <p><i>Probably the best miniature Cattleya in the world today ! Delightfully fragrant and compact, it will grow happily under lower light Phalaenopsis conditions. This exquisite hybrid has multiple species in its immediate breeding background: C. loddigesii, C. aurantiaca, C. harrisoniana, C. trianae, C. labiata, C. coccinea and C. cinnabarina. Its heavy substance full-form pink flowers can be produced twice a year on a fully mature plant, the flowers lasting for months. During the cooler winter months with lower light, the flowers first open as soft pink, later maturing to a vivid pink (as seen in the photos) under bright light and warmer growing conditions. An amazingly vigorous grower. A deserving winner of the Best Mini Catt and a blue ribbon at a recent Taiwan International Orchid Society Show.</i></p> <p style="text-align: center;">FRAGRANT MINI !</p>	<p style="text-align: center;">BS</p> <p>NEW !</p> <p>Robust multi-growth plants</p> <p style="text-align: center;">(3)</p>	<p style="text-align: center;">\$ 45</p>
	<p style="text-align: center;">Habenaria Regneri</p> <p style="text-align: center;"><i>(carnea x rhodocheila)</i></p> <p><i>A fabulous mating of two great species of Habenaria, many clones of which have been recognized with AOS awards ! Its beautiful silver-green spotted pattern on the wavy green leaves make this plant attractive, even when not in flower – and its compact growth habit allows it to fit readily into any collection. Large flowers are produced in the fall from the new spring growths bearing stunning salmon-pink flowers, creating up to 22 flowers on each inflorescence, the flower size being about 1 ¼". Like our comments below on growing Habenaria rhodocheila, we follow the same culture for this little hybrid – and it, too, loves growing in New Zealand Moss ! Not available for the last two years, we were recently fortunate enough to obtain a few more from Taiwan.</i></p> <p><i>Being seedlings, not mericlones, there will be some variation from one seedling to the next.</i></p> <p style="text-align: center;">MINIATURE !</p>	<p style="text-align: center;">F</p>	<p style="text-align: center;">\$ 42-48</p>

PHOTO	NAME & NOTES	SIZE	PRICE
	<p style="text-align: center;">Habenaria rhodocheila <i>(Two different color forms of Species)</i></p> <p><i>We have been amazed at how easy to grow that this Habenaria species has been ! Even when not in flower, their foliage is beautifully marked. We've found that if we keep them just slightly moist with a light spritzing, not wet, when they go deciduous, they produce their spring growths readily. Allowing them to dry totally will most likely cause their loss over the winter – we know, we used to follow the culture sheets & did just that – and they never came back ! We've also discovered that trying to grow them in a bark mix is more than challenging, so we've switched to growing them in moss. This population has been extremely vigorous & is well worth adding to every collection. Plus, despite our initial doubts, they LOVE growing in the New Zealand moss ! We've been amazed at how really easy Habenarias are to grow & flower – just don't follow any of the culture sheets & you'll do great !</i></p> <p><i>Being seedlings, not mericlones, there will be some variation from one seedling to the next.</i></p> <p style="text-align: center;">MINIATURE !</p>	<p style="text-align: center;">BS</p> <p><i>Vivid orange flowered form</i></p> <p style="text-align: center;">- or -</p> <p><i>(Yellow x orange) flowered form</i></p> <p><i>A few are already initiating their fall flower spikes !</i></p>	<p style="text-align: center;">\$ 35</p> <p style="text-align: center;">\$ 33</p>
	<p style="text-align: center;">Phrag. Hanne Popow <i>(schlimii x besseae)</i></p> <p><i>One of the most adorable of miniature Phrag hybrids & a particular favorite of ours, this population of Hanne Popow has proven to be a vigorous grower ! We love its smaller growth habit & perky little flowers, some of which have flowered in two-tones with others bearing a small central blush. An easy grower, it thrives right alongside our Phals !</i></p> <p style="text-align: center;">MINIATURE !</p>	<p style="text-align: center;">BS</p>	<p style="text-align: center;">\$ 35</p>

	<p>Dtps. OX Firebird 'Butterfly'</p> <p><i>(OX Black Jack x Walnut Valley Halo)</i></p> <p><i>With harlequin breeding coming into this hybrid from both parents, the actual harlequin expression has varied from one clone of this hybrid to another. Although its flowers are smaller in size than the clone 'OX1277', they still are large at 4" and slightly lighter in color than 'OX1277'. We happen to love this particular clone, 'Butterfly', for its heavy suffusion of the rich burgundy harlequin saturating most of its white background, leaving a splash of burgundy harlequin around all its segments. As a bonus, it naturally produces cascading waterfall spikes !</i></p> <p>OUTRAGEOUS NEW HARLEQUIN !</p> <p>FROM OX NURSERIES, TAIWAN</p>	<p>BS</p> <p>(1)</p>	<p>\$ 35</p>
	<p>Dtps. OX Happy Dancer 'Sweetheart'</p> <p><i>(OX Spot Queen x OX Little King)</i></p> <p><i>One of the newest in stable harlequin breeding ! A wonderful mix of a multi-floral mini candy striper in the background of OX Little King – and a great larger flowered harlequin pod parent. As a result, the harlequin parent has taken the striping pattern from OX Little King and "harlequinized" or emboldened its striping with heavy burgundy spotting, creating flowers reaching almost 4" in size. Its naturally cascading inflorescence, with perfectly shingled flowers, merely adds to its impact.</i></p> <p>FROM OX NURSERIES, TAIWAN</p>	<p>BS</p>	<p>\$ 20</p>

	<p style="text-align: center;">Dtps. OX Happy Girl 'OX 1581'</p> <p style="text-align: center;"><i>(OX X-Ray x OX Little King)</i></p> <p><i>Dtps. OX Happy Girl has quickly become one of our most favorite of all multi-floral miniature harlequins for its compact spikes, full round flowers and stable harlequin patterning ! We've stocked every clone OX has offered, but have not yet flowered this clone. However, we know it will be as consistently good as the others, varying only in its expression of the harlequin pattern.</i></p> <p style="text-align: center;">OUTRAGEOUS NEW MINI HARLEQUIN !</p> <p style="text-align: center;">FROM OX NURSERIES, TAIWAN</p>	<p style="text-align: center;">BS (4)</p> <p style="text-align: center;">NEW !</p>	<p style="text-align: center;">\$ 18</p>
	<p style="text-align: center;">Phal. OX Lucky Boy 'OX 1649' AM/AOS</p> <p style="text-align: center;"><i>(K S Culiacan x Nobby's Amy)</i></p> <p><i>Another great clone of Phal. OX Lucky Boy – and in our opinion, this clone is even better than the first clone we awarded last year – this year it was shown & was given a well-deserved high AM/AOS. As the photo shows, the form is much fuller with the petals touching ~ and the lip is just as brilliant a golden-yellow and as broad as the awarded clone ~ of these two clones, this is our #1 pick. From the fact that our first-bloomers already produced 2 spikes in just a 2.7" pot, we know that when they grow up their display will be as floriferous as the awarded clone 'OX 1587', which carried 69 flowers on 4 branched inflorescences !</i></p> <p style="text-align: center;">MULTI-FLORAL MINI</p> <p style="text-align: center;">FROM OX NURSERIES, TAIWAN</p>	<p style="text-align: center;">BS (3)</p> <p style="text-align: center;">NEW !</p>	<p style="text-align: center;">\$ 33</p>

PHOTO	NAME & DESCRIPTION	SIZE	PRICE
	<p>Dtps. Ruey Lih Fairy 'RL#1'</p> <p><i>(Sweet Strawberry x Sogo Vivien)</i></p> <p>A great improvement over Dtps. Sogo Vivien, producing readily branching spikes held well above the foliage with the more intense pink influence coming from Dtps. Sweet Strawberry. The striping pattern is crisper than Sogo Vivien and the spacing on the spikes is much more attractive than the crowding of Dtps. Sogo Vivien, allowing you to enjoy each little flower to its fullest. Produces a floral display like a miniature topiary !</p> <p>MULTI-FLORAL MINI !</p>	BS	\$ 28
 	<p>Dtps. Sogo Berry 'F1379'</p> <p><i>(Sun Jye Diamond x Phal. Zuma's Pixie)</i></p> <p>Super rich deep pink flowers on compact branching spikes ! Even better, the leaf span is small on these plants, making it the perfect under-lights/windowsill plant. A great result of breeding with the proven parent, Phal. Zuma's Pixie. When fully mature, this little hybrid is capable of producing multiple branching spikes !</p> <p>MINI !</p> <p>FROM SOGO NURSERIES, TAIWAN</p>	BS <i>Limited</i>	\$ 28
 	<p>Phal. Sogo Ibis 'Little Maruko'</p> <p><i>(Liu's Rainbow x Zuma's Pixie)</i></p> <p>A true <i>MICRO MINI</i> with a tiny leaf span and short compact branching spikes on fully mature plants. Each flower is perfectly outlined with a narrow white picotee. Readily makes basal keikis to create a specimen plant (the specimen we saw was in just a 3" pot !), quite like an adorable little bush of pink micro-mini flowers !</p> <p>FROM SOGO NURSERIES, TAIWAN</p>	BS	\$ 25
