1st August, 2021

Dear Orchid Friends and Customers,

Just as we all thought things would return to normal, we are left with yet another lockdown to level 4! How long can this go on for!

As I said in my previous letter, so many things have had to be put off. No spring show last year, no end of year braai for the orchid society and we have just cancelled our Christmas in winter society lunch.... We are however planning our Spring show for 2021 and it will take place at the Presbyterian Church hall in Caledon Street, George as usual from Wednesday 8th September to Saturday 11th September. All being well, I will have a display stand and a selling area, so I look forward to seeing you all. We will, of course, be Covid compliant so forgive us if you are checked at the door and sanitised!

I have managed to obtain a number of new plants this year but am unable to import due to the many restrictions and the enormously increased cost of airfreight to bring the plants into South Africa. I will just have to wait a little longer. Carter and Holmes, however, had a problem in their laboratory and were only able to offer a fraction of the stock they usually have, so maybe it was all for the best.

Do read the descriptions on the new list – I have put the quantities left over if there are only a few in stock, sometimes only one, but if it is a nice plant it's a pity not to offer it. I have also divided some of my own stock and they will be added as soon as they are rooted and ready to go.

I am still only open to the public on a Wednesday morning from 10am – 1pm, otherwise by appointment. It is still working very well supplying Norga River Nursery with the orchid mixes and flowering plants so don't forget you can pop in there if you need mix in a hurry. They are on the Airport Road 102, George.

Wishing you all the best for a fabulous and healthy orchid growing year in 2022!

Else

Else Hall

O/o	<p>Cattleya Pacavia (<i>C. tenebrosa</i> x <i>C. purpurata</i>) Grown from flask, these young plants are now in 9cm Disa pots and are ready for new homes. Summer blooming.</p>		125.00
9866	<p>C. Portia <i>coerulea</i> (<i>C. labiata</i> <i>coerulea</i> 'Canaimas Heidelbeer' x <i>C. bowringiana</i> <i>coerulea</i> 'Willowpond') Everyone loves a blue cattleya and the C&H remake of this popular cross will produce some showy results. Plants will be large growing with clusters of lilac and blue flowers with soft yellow throats. Lightly fragrant. 9cm</p>		325.00
9635	<p>Laelia Coronet (<i>L. harpophylla</i> 'no. 3' x <i>L. cinnabarina</i>) Expect sprays of bright orange star-shaped blooms with lighter yellow and cream trumpet shaped lips. Very shows with a blooming season just right for winter shows. Use a long lasting and fast draining media and do not disturb too often. 9cm pots.</p>		325.00

9997	<p>Laelia Pulcherrima (<i>L purpurata concolor</i> 'Jeni' x <i>L purpurata carnea</i> 'Newberry Perfection')</p> <p>Beautiful colour form of this excellent primary hybrid from the cross of two of Brazil's most beautiful species, <i>L lobata</i> and <i>L purpurata</i>. The blooms are oh so delicately marked. 9 cm pots.</p>		325.00
CAL	<p>Lc. Bowri-albida</p> <p>Originally from CAL Orchids in Santa Barbara, this cross is <i>Cattleya bowringiana</i> with <i>Laelia albida</i>. Well held stems of the softest lavender – its one of my favourites!! Flowering size divisions in 15cm pots.</p>		325.00
8920	<p>Lc. Li Cheng Mary x Lc. Stephen Splendor 'no. 1'</p> <p>New line breeding from the famous Lc Persepolis 'Splendor' for lavish semi-alba blooms with deep red-purple lips. Large growing with broad foliage. Fall/winter blooming. 12.5 cm pots.</p>		325.00
10122	<p>Lc. Marcello Miranda 'Emily' AM/AOS x C labiata coerulea 'Caniamas Heidelbeer'</p> <p>Photo Lc Marcello Miranda – used extensively in breeding quality blue cattleyas. The C labiate used is of very good quality. 9cm pots.</p>		325.00
9964	<p>Lc. C. G. Roebling 'Royal Purple' HCC/AOS x self</p> <p>Large, light bluish/white flowers that have a deep purple tubular lip and gold veining. 9cm pots.</p>		325.00
10196	<p>Pot. Ann Cutter (Pot. Greg Uzar 'Newberry Majesty' x Sc Lana Coryell 'Forevermore' AM/AOS) (Photo Sc Lana Coryell)</p> <p>Soft yellows and pinks, good shape and size. 9cm pots.</p>		325.00

10227	<p>Pot. Greg Uzar 'Newberry Majesty' x Lc. Lou Gilmore 'Sunflower' Photo: Lou Gilmore</p> <p>New breeding for luscious yellows with red or pink lip colouring. Both parents are good growers and tend to produce multiple growths. Very fragrant. 9cm pots.</p>		325.00
10239	<p>Pot. Greg Uzar 'Sunshine' x Sc. Beaufort 'Harfords's Elmwood' Photo: Sc Beaufort (minicatt).</p> <p>I am sure this hybrid is going to produce some really special blooms. All will be yellow, with good substance. 9cm pots</p>		325.00
10046	<p>Pot. Paxton Brooks 'Orange Surprise' x Pot. Paxton Brooks 'Sunset Glow'</p> <p>The compact seedlings were bred from 2 strong growing parents, both very floriferous with vibrantly shaded blooms. Winter-various. 9cm pots.</p>		325.00
9816	<p>Sc. Dandee Tease (4N) (C percivaliana x Sc. Beaufort) (Photo C percivaliana)</p> <p>Imported for the second time. Very popular cross, vigorous and floriferous. 8cm pots.</p>		325.00
10186	<p>Sc. Lana Coryell 'Pink' x Bc Raspberry Parfait 'Lorraie McLellan' (Photo Blc Raspberry Parfait).</p> <p>Expect pretty, compact growing plants with candy pink blooms. Could flower twice a year. Seedlings are provings to be warmth tolerant. 9cm pots.</p>		325.00
9994	<p>Slc. Anne Tapper 'Mendenhall' x Lc. Jungle Elf 'Carmela' (Photo Slc. Anne Tapper). Jungle Elf is a short bifoliate with dark red spots over sunny yellow blooms. Expect a range of red, orange and gold blooms with varying markings on compact growing plants. Warmth tolerant and suitable for basket culture. 9cm pots.</p>		325.00

Code	Description		Price
9981 C&H	Bifrenaria Fuersten Mountain <i>(Bifrenaria inodora x harrisoniae)</i> Interesting cross from Carter and Holmes of the light green/lavender lipped <i>B. inordora</i> with <i>B harrisoniae</i> (see photo). Need winter rest, blooms in early summer for shows. Near blooming size plants in 9cm pots. Larger plants available R195.		150.00
M/B	Bulbophyllum Elizabeth Ann 'Buckleberry' Got a few divisions of a good clone from Mike Byren a couple of months ago.		250.00
E/o	Cattleya Gold Digger 'Juch's Mandarin' Another spring beauty, bright yellow clusters just right for show time. 12cm and 15cm pots, blooming size.		325.00

	<p>The following 6 plants are Den nobile type hybrids:- Photo: Den Hoshimusume This genus is popular for their show of brightly coloured flowers along the stems in late winter and early spring. Increase water and feed in spring and in autumn reduce fertilizer and give bright light. Water only enough that bulbs do not shrivel.</p>		
O/	<p>Den. Angel Baby x Hamana Lake (Photo Den Angel Baby) 8cm baskets</p>		160.00
O/	<p>Den. Angel Baby x linwianum Photo. <i>Den linwianum</i> 8cm baskets</p>		125.00
O/	<p>Den. Golden Baby x Papillon Photo. Den Papillon 8cm baskets</p>		125.00
O/	<p>Den. Hamana Lake x Angel Baby Photo. Den Hamana Lake 8cm baskets</p>		160.00
O/	<p>Den. Super Ise x Piltero Gold Photo. Den Super Ise 8cm baskets</p>		160.00

O/	Den. (Yukidaruma x Maihama Beauty) x Hoshimusume Photo. Den Yukidaruma 8cm baskets		125.00
O/o	Dendrobium Berry Another favourite – Divisions of this dark pink Aussie type dendrobium – perfect for spring shows. Vigorous. 9cm pots. (Some larger plants available)		95.00
O/o	Dendrobium x delicatum This is a natural hybrid between <i>kingianum</i> and <i>speciosum</i> . It is extremely vigorous, beautifully fragrant, blooms for the spring shows and makes excellent specimen plants! 9cm pots. Some larger plants available on request at R145.00		95.00
O/	Dendrobium Delicatum x speciosum The old favourite, D x Delicatum put back onto the species D speciosum. Expect vigorous plants, blooming in spring with a hint of yellow to them. 9cm pot.		150.00
O/	Dendrobium King Zip Zippy Den. Kathking x Den. Zip Small but vigorous plants in 6cm pots. Spring blooming.		145.00
O/0	Dendrobium Little Doll I have been growing this delightful orchid for many years and now have a few for sale. Some are potted and some mounted. All are vigorous.		250.00

O/	<p>Dendrobium Stardust x <i>hercoglossum</i></p> <p>I am growing and blooming Stardust easily in the Garden Route (see photo). <i>D hercoglossum</i> is from Thailand and Myanmar area. It is a cool to hot growing epiphyte which flowers in spring with showy, fragrant, lavender blooms with a white lip. Should be a prolific bloomer with orange dominant. 8cm pots.</p>		125.00
10228 C&H	<p><i>Encyclia granitica</i> x <i>Enc. tampensis alba</i> (Photo. <i>Enc granica</i>)</p> <p><i>Enc tampensis</i> is known as the Florida Butterfly orchid and is brown/green with a delicate white lip with purple veining. Plants should be easy to grow and bloom. 9cm pots. 1 left.</p>		250.00
E/o	<p><i>Enc. Lorraine Smit</i> x (<i>E. elatum</i> x <i>Cashew's Brown Sugar</i>)</p> <p>These are so rewarding as mature plants I have re-ordered them. Multiple stems for mid-summer with delightfully marked lips. 14cm pots.</p>		250.00
E/o	<p>Epi. Miracle Valley Fujiyama</p> <p>Near blooming size plants of this orange epi. 12cm pots.</p>		260.00
O/o	<p><i>Maxillaria tenuifolia</i> x <i>meleagris</i></p> <p>Most of you know <i>tenuifolia</i> which is red with a coconut fragrance so I have shown the photo of <i>meleagris</i>. Seedlings should still have perfume and flowers might be a little bigger. 7cm pots.</p>		95.00
O/o	<p><i>Miltonia Honolulu 'Warne's Best' x regnelii</i></p> <p>Should be charming, easy to grow Miltonias which are extremely floriferous. 9cm pots.</p>		125.00

	Miltonia regnelli – the other parent of the plant above		
O/o	Onc. Catatante Kilauea Karma x Onc. Thwaitessi (Onc alexandrae x Onc tigrinum) Photo is of the Onc Catatante. Expect tall stems with many blooms on them. Onc tigrinum looks like Hambuhren so expect yellows with a few blotches on them! 9cm pots.		135.00
O/o	Onc. Catatante Kilauea Karma x Burr. Dee Luce Photo Burr. Dee Luce. Expect tall stems that are darker than the Catatante above. 9cm pots.		125.00
O/o	Odontoglossum Margaret Holm x Onc. Hambuhren Expect larger blooms looking more like Odontoglossums. Photo Onc Hambuhren. 9cm pots.		125.00
O/o	Oncidesa Golden Anniversary x Onc. Space Race 'Coco' Photo of Onc Space Race 'Coco'. Golden Anniversary is more yellow so it should be a good combination. 9cm pots.		125.00

E/o	<p>Onc. Sharry Baby 'Red Fantasy' Coming from the next generation of fragrant Oncidiums bred from the original 'Chocolate Orchid' – Sharry Baby 'Sweet Fragrance'. This is a new clone which is a slightly darker red. Blooming size in 12.5cm pots.</p>		325.00
O/o	<p>Oncidium Camino Dorado x Vuyl. Cambria Plush Large blooming size divisions of an old favourite of mine. Blooms in summer with very tall stems with clouds of white and yellow blooms with a touch of cinnamon. Would look gorgeous in a bridal bouquet! Photo is similar to the actual plant, but a bit smaller. Stems up to 1 metre long! 15 and 17cm pots.</p>		350.00
O/o	<p>Sarcochilus Fitzhart Divisions of own plant, clear white with a red centre. Blooms spring show time. Make fabulous specimen plants. 9cm pots.</p>		95.00
O/o	<p>Sarcochilus Heidi 'Red' x (fitzhart 'Red Gem' x hartmanii) Small but vigorous plant available in 6cm pots. Hoping for reds as per photo.</p>		125.00
O/	<p>Tolumnia Jairak Rainbow x sib Previously known as equitant Oncidiums these tiny plants can be called a specimen in a 7cm pot! They have a compact, clumping growth habit and produce flowers primarily in spring on long inflorescences that are branched on older plants. Expect a wide variety of colour forms. Mounted.</p>		150.00

O/	Zygopetalum (Conway's Choice x Adelaide Cherry) (Photo Z Conway's Choice) Attractive Zygo hybrid available in 10cm pots.		150.00
O/o	Zygopetalum intermedia x Adelaide Meadows Really nice blooming size plants in 17.5cm pots. Tall stems, well held, flowers have a superb perfume!!		350.00

PHRAGMIPEDIUMS FROM ECUAGENERA

1568	<i>Phrag besseae</i> Found on the eastern slopes of the Andes of Colombia, Ecuador and Peru as a small sized, cool growing terrestrial on cliff faces of riversides and on granite rocks. Dark green leaves are held in a fan shape that blooms in late winter and spring on a 1-4 successive flowered inflorescence. Stunning colours. Known as Mrs Besse's Phrag!		920.00
E13	<i>Phrag boissierianum</i> var <i>czerwiakowianum</i> Medium sized, cool to warm terrestrial species from Peru and Ecuador that blooms in the autumn through spring. It has an erect 23cm long successively single flowered inflorescence that carries a few (3) flowers. 9cm pots.		750.00

E14	<p><i>Phrag hirtzii</i> Found in Ecuador and Colombia as a medium sized, warm growing terrestrial on large boulders near watercaourses. Blooms at any time of year on an erect 40cm long, 5 to 7 flowered inflorescence and has successively opening flowers held well above the plant. 9cm pots.</p>		750.00
2162	<p>Phrag Eric Young (<i>longifolium x besseae</i>) Phrag longifolium ensures vigorous growth, while besseae add colour. 9cm pots.</p>		750.00
2164	<p>Phrag Fritz Schomburg (<i>besseae x kovachii</i>) or (<i>kovachii x besseae</i>) Perhaps the best primary kovachii hybrid so far, Fritz Schomburg looks like a huge besseae hybrid with colours in purple to coral tones. 9cm pots. 1 left in 9cm Disa pot.</p>		1,145.00
2165	<p>Phrag Geralda (<i>lindleyanum x caudatum var. giganteum</i>) This hybrid originated by Mr Turner in 1899. It is exceedingly vigorous and makes a good specimen plant. 9 cm pots.</p>		1,145.00
1577	<p><i>Phrag humboltii</i> Fortuna This orchid is on the red list of threatened species and is found in Costa Rica, Guatemala etc. Grows at an altitude of 1,500 – 1,600m. The number of adult plants continues to decrease in its natural habitat. This particular variety is found in the Fortuna forest reserve and is protected from collection. 12.5cm and 15cm pots.</p>		1,475.00
2170	<p>Phrag Incan Treasure (<i>longifolium x kovachii</i>) Petals are around 12cm plus in length. This plant is very useful in breeding to other long petal Phrags or to 4N Phrags to create very large flowers. 1 small one left.</p>		250.00

E17	<p><i>Phrag longifolium</i> Found from Costa Rica to Ecuador on roadside banks as a medium to large sized, warm to cool growing terrestrial. It has an erect, 60 – 90cm long, several flowered inflorescence with 7 to 9 flowers opening in successions mostly in autumn but could be almost any time during the year. 9cm pots.</p>		750.00
E18	<p><i>Phrag pearcei</i> A small sized, cool to warm growing terrestrial from Peru, Costa Rica and Ecuador growing near rivers and on boulders within rivers. It has no pseudobulbs but its growths are close together. There is a terminal, erect, 14cm long successive opening, multiflowered inflorescence that occurs in the summer and has non fragrant flowers. I find it easy to grow here on the Garden Route. 9cm pots.</p>		575.00
2176	<p>Phrag Perufflora's Angel (<i>kovachii x richteri</i>) This cross was a pleasant surprise for the breeder. Flowers exhibit a gorgeous variety from lavender to purple. 9cm pots.</p>		1,195.00
2177	<p>Phrag Perufflora's Cirila Alca (<i>kovachii x dalessandroi</i>) A nice hybrid producing flowers with different shades of fuschia. Temperature cool-intermediate. Light level low to medium. Blooming season varies. 9cm pots.</p>		920.00
E19	<p><i>Phrag reticulatum</i> Found in Peru and Ecuador on steep embankments in very wet montane forests along rivers with rich black, well drained sandy soil. Blooms in late summer and autumn on an erect, 1 to 2 flowered inflorescence. 9cm pots.</p>		575.00

E20	<p><i>Phrag richteri</i> (aka <i>P amazonica</i>) Found in Peru as a medium sized, cool to warm growing, natural hybrid terrestrial orchid with the parents of <i>Phragmipedium pearcii</i> and <i>boisserianum</i>. 9cm pots.</p>		1,150.00
2180	<p>Phrag Ruby Slippers (<i>besseae x caudatum</i>) Nice shape and besseae colour. 9cm pots. One large one left and 3x small at special price.</p>		1,100.00
2183	<p>Phrag Super Rubies (<i>besseae x popowii</i>) This is a long petaled red Phragmipedium hybrid. Very nice sized plants in 9cm pots ready for potting on.</p>		Out of stock
1586	<p><i>Phrag warzewiczianum</i> var. <i>wallisii</i> Hailing from Guatemala and named in 1852 in honour of the plant collector Josef Warszewicz, this phrag is one of the most spectacular members of the phrag species. 9 and 12.5cm pots.</p>		1,145.00
E22	<p><i>Phrag warszewiczianum</i> var. <i>wallisii</i> x <i>Phrag humboldtii</i> 'Fortuna' Primary hybrid with two long petalled parents. Blooming size. 9cm Disa pots.</p>		920.00

PAPHIOPEDILUM SPECIES

TSG	<p><i>Paph. esquirolei (hirsutissimum var esquirolei)</i> Found in N Thailand, N Vietnam and S China this herbaceous humus epiphytic species is found on NE facing slopes in semi-deciduous forests above limestone caves. Cool to warm growing with clear green leaves that blooms in spring on a single flowered inflorescence. 9cm pots.</p>		450.00
O/o	<p><i>Paph. gratrixianum</i> Found growing in leaf litter in south-eastern Laos and Northern Vietnam in evergreen cloud forests with no dry season and constant humidity. Produces an erect 25cm long, single flowered inflorescence that is autumn and early winter blooming. Easy to grow and bloom.</p>		450.00
TSG	<p><i>Paph glaucophyllum</i> From central Sumatra and Java on volcanic mountain slopes. It is a small sized, hot to warm growing terrestrial species with clear blue-green, dull leaves. It blooms from spring through summer on a 40cm long stem with up to 20</p>		450.00

	successively opening flowers with never more than 2 open at a time. Very rewarding. 9cm pots. 1 left.		
TSG	<p><i>Paph henryanum</i></p> <p>This species was only discovered in 1987. It occurs around the China and N Vietnamese border at 610-1400m. It is found as a lithophyte in semi-deciduous forests on limestone cliffs. Blooms on a single flowered, erect, long green to purple brown inflorescence in the autumn and winter.</p>		450.00
O/o	<p><i>Paph insigne var Sanderae</i></p> <p>This is an intermediate to cool growing paph as it comes from fairly high elevations. It is also the yellow form of the species and lacks the spots of the type form. 9cm Disa pots.</p>		125.00
O/o	<p><i>Paph victoria-reginae</i></p> <p>This is a medium sized, warm to cool growing terrestrial from Sumatra. Successive blooming on many flowered inflorescence. 9cm Disa pots.</p>		450.00
TSG	<p><i>Paph villosum</i></p> <p>This cool growing paph is a delight to grow on the Garden Route. Blooms profusely towards the end of winter through to spring with long lasting glossy flowers and yellow green leaves. It forms clumps and is found in Assam India, Thailand, S China through to Vietnam. It carries a single flower.</p>		450.00

CARTER & HOLMES ORCHIDS

My next order from Carter & Holmes should be August/September 2022 all going well. Due to ongoing Covid problems, I have been told that the airfreight is likely to increase threefold if I import this year. By then I am hoping that the Postal system will be up and running or otherwise airfreight will be easier than it is at present. You are welcome to request plants from their website for me to include in my 2022 order. Please note they are not able to send all plants on their website due to Cites restrictions.

CONDITIONS

1. All prices are nett.
2. Mail orders are my speciality, I normally pack on a Monday or Tuesday. Please add 15% to value of the order to cover Dawn Wing door to door courier or wait for quote on Postnet courier which is likely to be less expensive. Please also add a packing charge of R60.00 per order.
3. **Note!** I use Dawn Wing Couriers for Door to Door, minimum cost is R250 or 15%. As we have a local Postnet, I am prepared to use them provided the parcels are small and under 3kg. R100 should cover it if less than 3kg and small in volume. They can be collected at your nearest Postnet depot. Large cymbidiums or other large plants may attract a higher courier fee than 15%.
4. All plants are all sent in their containers with the potting mix sealed into the pot. Large plants can be sent bareroot if requested in order to save money.
5. The nursery is open Wednesdays from 10am – 1pm. All other times by appointment. We are still open if Wednesday falls on a Public Holiday.
6. Payment should preferable be made by direct deposit to Outeniqua Orchids. Our account is with Nedbank, Stellenbosch branch code 107-110 (or universal), Account number 1071-257-633. Email copies of deposit slip to stellrsa@mweb.co.za WE DO NOT HAVE VISA FACILITIES! Please do not deposit cash – if you must do, please add R30.00 to cover bank costs.
7. Please note that this list cancels all other lists.
8. DIRECTIONS TO THE NURSERY FROM N2:-
ADDRESS: 34 Napier Street, Blanco. George, Western Province
From Cape Town:
After Great Brak continue towards George. Take turnoff GEORGE AIRPORT/HEROLDS BAY. At bottom of off-ramp, turn left to the airport. You will pass entrance to airport on your left. At stop sign, continue straight over the old N2 – direction OUDTSHOORN. From this stop, continue a further 5km – at the end of this distance, you will have Fancourt Golf Estate main entrance on your right hand side – continue another 450m – turn right into Napier Street – continue nearly to the bottom, no. 34 is on the left hand side. The Yellow House is signposted...
From Knysna:
Continue on N2 past George – Take turnoff left GEORGE AIRPORT/HEROLDS BAY – at bottom of off-ramp turn right to the airport. You will pass(see above).
9. To place an order please download and print the order form directly from the website. Complete your order manually and email to stellrsa@mweb.co.za I will contact you with availability of plants prior to asking you for payment of the order. Pro-forma invoice provided.

DENDROBIUM SPECIOSUM var. 'Woodcroft'

This photo is just to show you what can be done with a *Dendrobium speciosum*.

This plant was imported from Australia 28 years ago and photographed in my shaded area in September 2014 with Robert looking on. Second photo taken in 2016 before our spring show – transported in a builder's lorry!

It received an Award of Cultural Merit at the Orchid Society of the Southern Cape Spring Show.

Pods of this plant to be sown soon! Watch this space!

In the meantime Den speciosum var Compacta available f/size R450.00.

9cm pots of Den speciosum available at R210.00
